Executive Report

1. Introduction

- 1.1 The terms of reference for a review into the performance of schools in West Berkshire were drafted at the Stronger Communities Select Committee on 6 July 2009. They were then endorsed by the Overview and Scrutiny Management Commission at its meeting on 28 July 2009.
- 1.2 The review will consider, in particular:
 - The background and context
 - Where and why schools are not reaching the required standard
 - Consider what is being done and can be done further to improve schools' performance
 - Factors affecting fluctuations in school performance
- 1.3 The outcome of the review will be reported to the Executive with recommendations for changes in the current arrangements.
- 1.4 Attached at Appendix A is a report from the Chief Adviser for School Improvement giving background information and suggesting some draft proposals for consideration.
- 1.5 In addition a number of witnesses will be in attendance at the meeting to provide verbal evidence and these are listed below:
 - Councillor Barbara Alexander, Portfolio Holder for Children and Young
 People
 - Andy Tubbs, Chief Adviser for School Improvement
 - Chris Bryan, National Challenge Adviser
 - Alan Bartlett, School Improvement Partner
 - Maxine Slade, School Improvement Adviser
 - Michael Wheale, Executive Headteacher, John O'Gaunt School
 - Paul Dick, Executive Headteacher, Trinity School and Interim Executive Board Chairman for Winchcombe Primary School
 - Linda Valenti, Executive Headteacher, John Rankin Junior School

2. Recommendation

2.1 The Select Committee is asked to consider the evidence provided by the witnesses and in the attached report, which suggests some draft proposals, to identify, where possible, further measures that could be taken to improve school performance.

E-mail Address:	atubbs@westberks.gov.uk

Executive Summary

1. Introduction

- 1.1 Expectations of school performance and the thresholds they are expected to exceed have been rising continually. Whilst many schools in West Berkshire have steadily improved performance, some schools have not. Two secondary schools are in the National Challenge to improve GCSE standards; one primary and one secondary school are subject to special measures following Ofsted inspections in December 2008.
- 1.2 There are a range of factors affecting school performance. Of prime importance are:
 - (i) Strong leadership
 - (ii) Good governance
 - (iii) Consistent teaching of high quality
- 1.3 The Council has a set of procedures in place for monitoring the effectiveness of schools; providing support and intervening where necessary. Within the range of intervention measures that local authorities are now able to take, a key common element is to draft additional expertise into struggling schools in order to increase their capacity to improve. School Improvement Partners support and challenge schools and currently use a risk assessment to monitor performance. Given the increasingly demanding national expectations of school performance, the Council needs to review its current procedures and systems and consider where further developments are necessary.

2. Draft proposals for consideration are:

- (i) Enhancing the training available to school governors to strengthen their role in monitoring performance;
- Bring forward proposals with the School Funding Forum to enhance the provision of School Business Managers in schools in order to enable headteachers to concentrate more fully on standards and learning;
- (iii) Strengthen the monitoring of school financial planning and reporting;
- (iv) Further develop the existing programme of leadership development available across all schools through the local hub of the National College for School Leadership;
- Bring forward proposals in consultation with secondary schools to strengthen the recruitment and retention of specialist teachers, especially in mathematics and science;

(vi) Where LA officers have significant concerns about individual schools, ensure that the Standards & Effectiveness Panel has a clear role in monitoring progress and the effectiveness of any early intervention.

3. Conclusion

3.1 The Select Committee is invited to draw upon evidence in this report and from verbal evidence provided by expert witnesses at the meeting in order to consider the proposals and make recommendations to be taken forward.

Executive Report

1. Introduction

- 1.1 Definitions and background: Schools in National Challenge are judged against a single measure – the % of pupils gaining 5 or more GSCE grades at A*-C including English and maths against a national floor target of 30%. National Challenge started in August 2007 when DCSF announced a new floor target of 30% minimum. 618 schools were identified nationally as below the new floor target. This included John O Gaunt School based on the school's 2007 GCSE results. Trinity school was included in the national programme from 2008 following a dip in its GCSE results that year.
- 1.2 The National Challenge programme provides a range of support and challenge to schools negotiated through a National Challenge Adviser (NCA) and monitored by the DCSF through a Local National Challenge Board. Additional funding is provided through Standards Fund Grant to each school scaled according to the specific programme for the school. Where schools in National Challenge fail to make progress, the Local Authority is required to consider and implement more radical structural change. This can include replacement of the school with a National Challenge Trust or academy; or compulsory federation of the school with a more successful one. John O Gaunt was inspected by Ofsted in October 2007 and judged to be satisfactory with good features. Trinity school was inspected in February 2008 and judged to be satisfactory overall.
- 1.3 **Schools in Special Measures** are judged by Ofsted to require significant improvement. The criteria used are set out in the school inspection framework. The key judgements are around outcomes for pupils, especially standards of achievement and capacity to improve further. When a school is judged to require Special Measures, the Local Authority is required to consider the options open to it including closure of the school. The LA is required to set a timescale for the school to come out of special measures and set out the action it will take to bring this about. Since September 2008, every LA has an enhanced range of powers to take radical action where required. Schools that are judged to be inadequate on standards but not requiring Special Measures can also be given a Notice to Improve with one year to secure improvement before re-inspection.
- 1.4 Pupil attainment data for the schools in National Challenge or Special Measures are shown in Appendix A
- 1.5 **The current position is West Berkshire:** Two secondary schools are in National Challenge John O Gaunt and Trinity (Trinity likely to be out of the programme after this academic year following improved GCSE results in summer 2009). Two schools are in Special Measures: John Rankin Primary School; and Denefield secondary school. Winchcombe Primary school came out of special measures in June 2009. Speenhamland primary school has a notice to improve and will be re-inspected in the spring of 2010.
- 1.6 West Berkshire categorises each school on an A-D scale, based on performance and need for additional support from Council services. Schools in special measures

or notice to improve are in category D. Table 1 below shows the trend over time of the number of schools in each category.

Table 1: Numbers of schools in each LA category. D= Special measures / Notice to improve

Category	2001/0 2	2002/0 3	2003/0 4	2004/0 5	2005/0 6	2006/0 7	07/08	2008/0 9	2009 / 10 Quarter 1
A	48	53	51	48	47	51	51	46	43
В	29	26	30	32	26	26	26	29	32
С	7	6	6	6	9	4	5	6	7
D	1	0	1	1	3	4	1	4	3

- 2. Other contextual factors: A number of other factors need to be taken into account when considering the causes of underperformance in schools:
- 2.1 The thresholds on school performance have risen successively over recent years. In addition, the Ofsted inspection criteria have been made progressively more demanding. Significant changes to the Ofsted criteria made in September 2005, 2008 and 2009 have placed much higher expectations on schools. In general terms, a level of performance that would have been judged good five years ago would now only achieve "satisfactory". The changes are:
 - New inspection framework introduced in September 2005 with more demanding criteria plus expectations about rigor of school self-evaluation.
 - Increased focus on inspection judgments driven by attainment data. Below par performance in a single year is enough to trigger being put in an Ofsted category.
 - New guidance to inspectors in Autumn 2008 setting out higher expectations about schools increasing standards at least in line with the national trend to get a "good" judgment on standards overall.
 - New guidance to inspectors from September 2008 that schools needing to improve must be put in special measures if the necessary improvement is likely to take longer than 12 months to achieve
- 2.2 The range of measures used to judge school performance has been broadened considerably. These include measures of the progress of all pupils as well as their age-related attainment. Schools are now required to set progress targets for all children and there is an increasingly sharp focus on the attainment of particular vulnerable groups. Whereas the core subjects of English and mathematics used to be judged separately, they are now measured together with an expectation that as many pupils as possible attain the required level in both subjects.
- 2.3 School leaders and governors have also been required to manage a wide range of other issues and initiatives over the last five years. In many schools the range of other initiatives has diverted time and attention away from the core purpose of schools in learning and achievement. These include:
 - Every Child Matters agenda launched from 2005 with 5 outcome areas to be judged against.
 - Pupil progress targets introduced from 2006. Expectations of 2 levels of progress for every pupil over each key stage means that all teaching needs to

West Berkshire Council Stronger Communities Select Committee 5 October 2009

be of high quality in every year group. Nowhere for weaker teachers to be placed to minimize impact.

- New national "floor targets" introduced by National Strategies. KS2 level 4+ 65% in English and maths. GCSE 25% 5+ A*-C
- Workforce reform regulations introduced requiring arrangements to be made to relieve teachers of 25 routine tasks and move these into a revised arrangement for school support staff. Plus requirement to restructure leadership and management posts within new pay system for management responsibilities. New statutory requirements on performance management of staff.
- Full Core Offer for Extended Schools to be delivered by 2010
- Healthy Schools Standards to be achieved by 2010
- Financial Management in Schools Standard to be achieved by 2010
- Higher expectations around safeguarding children.
- Additional responsibilities / regulations around health and safety Fire Safety, Legionella etc.
- June 2007 introduction of revised floor target for secondary schools of 30% 5+A*-C including English and maths. Launch of National Challenge
- New duty to promote Community Cohesion inspected from September 2008
- Impact of demographic change and fluctuating pupil numbers potentially affecting school budgets.

3. Key factors affecting achievement of pupils

- 3.1 There are three basic essentials that enable good schools to ensure that children & young people achieve well. These are:
 - (i) Strong leadership
 - (ii) Good governance
 - (iii) Consistently good teaching and learning

Where these 3 key elements fall short of the mark, there will be underperformance.

4. How school performance is monitored

- 4.1 All schools are expected to be semi-autonomous and continually improving institutions. The aim of all schools is to improve to the point of being judged outstanding. Schools are expected to self-evaluate their performance and keep a record of this using a School Evaluation Form. This is used by Ofsted inspectors when visiting a school to make judgements about the quality of the school; the accuracy of its self-evaluation; and the capacity of the school to improve further.
- 4.2 The self-evaluation and continuous improvement process is supported by a **School Improvement Partner** working with each school. The SIP is required to support and challenge the leadership in the school so that priorities for development are clear and self-evaluation is realistic and accurate. The SIP also has an important

role in supporting and advising the governing body with the performance management of the headteacher and agreeing annual statutory targets for pupil attainment and progress. All schools have a statutory allocation of 5 SIP days spread over the year. Schools needing additional support have an extra allocation of days scaled to the need and categorisation of the school. SIPs complete a set of reports over the year which are agreed with the school and then copied to the Chair of Governors.

4.3 Table 2 below shows the numbers of schools in each Ofsted category.

Table 2 School inspection grades. Latest data based on **82** schools inspected since September 2005 out of 83 in LA total

Grade for overall effectiveness	Number at end of Q4 2008/09	Percentage at end of Q4 2008/09	Number at end of Q1 2009/10	Percentage at end of Q1 2009/10
Excellent	11	13.5%	11	13.5%
Good	48	60.0%	50	60.9%
Adequate	18	22.2%	17	20.7%
Inadequate	4	4.9%	3	3.6%
Total % good or better	59	73.5%	61	74.4%

5. Intervention in schools causing concern

- 5.1 Where schools are a cause for concern The Council provides a bespoke package of support agreed with the school. This often includes the deployment of specialist staff from the School Improvement Team; Leading Teachers or Advanced Skills Teachers from other local schools; brokered support from other schools with expertise in a specific area. Each school has a Raising Achievement Plan and the progress made against the plan is monitored through a cycle of School Progress Meetings held every 6 weeks.
- 5.2 From September 2008 each local authority has increased powers of intervention which can be used where a school is a serious cause for concern. These include:
 - (i) Issuing a formal Warning Notice to the Governing Body
 - (ii) Placing additional governors on the governing body
 - (iii) Replacing the governing body with an Interim Executive Board
 - (iv) Requiring a school to federate with a successful school
 - (v) Placing an Executive headteacher in the school to strengthen leadership
 - (vi) Closure of the school and replacement with a Trust School or an Academy
- 5.3 The process the LA uses to work with schools causing concern and intervene where required are set out in Appendix B.

6. Prime causes of underperformance in schools

6.1 From an analysis of the current schools in West Berkshire that are either in the National Challenge or in Special Measures the following factors have had a significant influence on underperformance at the time that the judgements about each school were made:

Factor	John O Gaunt	Trinity	Denefield	Winchcombe Primary	John Rankin Junior
Weaknesses in Leadership	~	~	~	~	V
Over pre-occupation with other initiatives / issues	~		~		~
Pressure on pupil numbers / budget deficit	~	~			
Weaknesses in governance		~	~	~	~
In-consistent quality of teaching	~	~	~	~	V
Difficulty in recruiting / retaining specialist teachers	✓Esp Maths	✓Esp Maths	~		V
In-sufficient capacity to improve	~	~	~	~	~
Ineffective SIP			~		

Table 3 – Prime causes of underperformance

7. What forms of intervention are effective?

7.1 The following interventions have been used in West Berkshire schools in order to tackle underperformance and have had a positive impact on the pace and quality of improvement:

Table 4 – Interventions used in schools

Intervention	John O Gaunt	Trinity	Denefield	Winchcombe Primary	John Rankin Junior
Local Authority school Improvement review	 ✓ 			4	
Issue of formal Advice note or Warning Notice to governing body		~	~	~	
Placement of interim headteacher / recruitment of new headteacher	V				
Placement of Executive Head from local successful school	~	V		~	~
Federation with another successful school	Supported by Little Heath	Paired with Kennet			Hard federation with John Rankin Infant
Placement of Additional Governors	~		~		~
Replacement of the governing body with an IEB		~		~	
School Raising Achievement Plan + programme of LA support	V	~		~	~
Appointment of Parent Champions			~	V	×
Replacement of the SIP			From Sept 2008		

8. Further developments

8.1 Since September 2008 the School Improvement Team has introduced a Risk Assessment Grid which all SIPs are required to use with schools in order to monitor and track progress as well as provide alerts where schools are at a continuing risk of failing to meet national floor targets or do well in an Ofsted Inspection. The outputs from the risk assessments are included within a School Tracking Grid which also includes a running record of school attainment data. Risk Assessments and SIP reports are copied to Chairs of Governors. An example of a Risk Assessment Grid is provided in Appendix C.

9. Draft recommendations

- 9.1 All the schools currently in National Challenge or Special Measures are making progress and are on track to achieve the required improvements within the timescales expected. In order to further strengthen school improvement processes in schools and prevent future failure the following draft recommendations are suggested for consideration:
 - (i) Enhancing the training available to school governors to strengthen their role in monitoring performance;
 - Bring forward proposals with the School Funding Forum to enhance the provision of School Business Managers in schools in order to enable headteachers to concentrate more fully on standards and learning;
 - (iii) Strengthen the monitoring of school financial planning and reporting;
 - (iv) Further develop the existing programme of leadership development available across all schools through the local hub of the National College for School Leadership;
 - Bring forward proposals in consultation with secondary schools to strengthen the recruitment and retention of specialist teachers, especially in mathematics;
 - (vi) Where LA officers have significant concerns about individual schools, ensure that the Standards & Effectiveness Panel has a clear role in monitoring progress and the effectiveness of any early intervention.

APPENDIX B School Intervention process

Intervention strategies

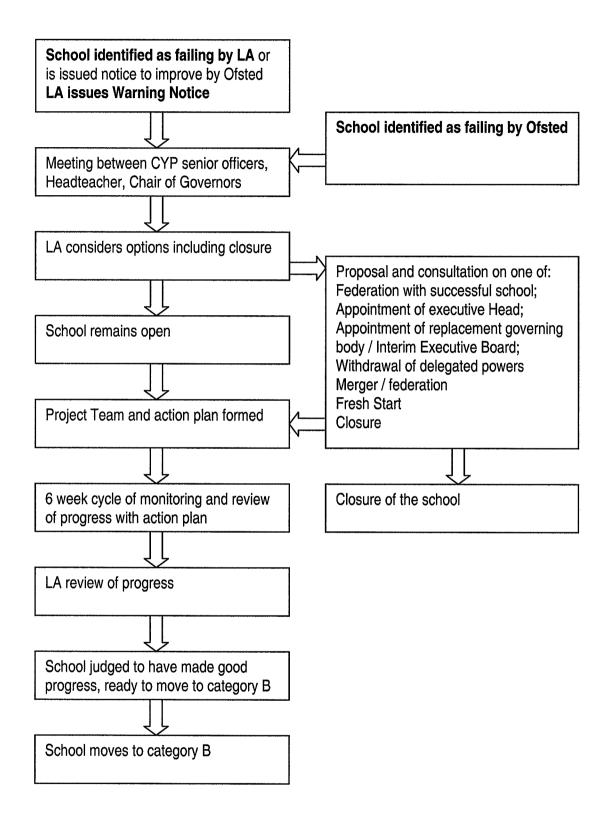

The Education & Inspections Act 2006 gives LAs additional powers of intervention. West Berkshire LA will deploy suitable strategies to secure improvement. It is hoped that the intervention strategies used will normally be planned and agreed with the school through the Project Team. Where a school is in an OfSTED category the LA support and intervention will have been set out in the **LA Statement of Action**. However, in extreme cases the LA will use intervention exclusively. The strategies used will be tailored to suit the individual circumstances of the school concerned. The range of strategies available includes the following:

Reason	Strategy
Where governance is weak	 Placement of additional governors on the existing governing body Partnering the governing body with the governors of another successful school Replacement of the governing body by an Interim Executive board Appointment of a "parent champion"
Where standards are low	 Deployment of national strategy consultants and programmes designed to raise standards. Additional deployment of ASTs or Leading teachers Partnering with another school where standards are high Commissioning of specific support from an external agency
Where leadership and management capacity is low	 Additional mentorship for the existing leadership team Deployment or secondment of additional senior staff from another school with a proven track record in school improvement Federation with another successful school Appointment of an Executive Headteacher
Where there is a failure to manage school finances effectively	 Additional support from the LA Accountancy Service Suspension of the school's right to a delegated budget
Where there is a serious failure in the overall effectiveness of the school	 Federation with a partner school Merger with another local school Closure and opening a replacement school through the Fresh Start process. Permanent closure through school reorganisation.

The following stages will normally be used for schools in category C

The following stages will normally be used for schools in category D

APPENDIX C: SCHOOL RISK ASSESSMENT GRID 2009/10 academic year (Primary phase)

Red /Amher
the bottom 20% in at Proportion of pupils in bottom 20% in all key S2 stages is at or around the LA average
bottom 20% is well Gap between the median and bottom 20% is at or around the LA gap
At least one vulnerable group is not achieving the same amount of progress as other pupils.
than 1 level of Most SEN pupils make 1 level of progress or more
or no progress. / gap A minority of FSM pupils do not make satisfactory progress. / gap at LA ave.
Attendance has been below the national average Attendance has been below the national average over a number of years and attempts to reduce it but shows an improving trend. show little or no impact
A significant minority of pupils show poor behaviour and behaviour and disrupt learning. Systems are in place, place but not consistently applied
There have been a significant number of Permanent exclusions are rare. Fixed term permanent and fixed term exclusions over the past are on a sclusions over the past 3 years are on a declining trend.
Appropriate statutory targets are set but tracking is Targets are set for FS, KS1 and the statutory insufficiently clear about progress and prior attainment.
There is a lack of clarity about arrangements for There is clarify about arrangements for monitoring monitoring and evaluation of school performance and evaluation, however, a focus on care without across the five ECM outcomes.
There are a number of staff vacancies covered by There are one or more vacancies which are longer term arrangements with no plan in place for appropriately covered and there is a long term a permanent appointment.
There is no unsatisfactory teaching and learning, 65% of teaching and learning is good or better and but less than 40% is good or better.
Weak governance Satisfactory governance which provides support (SIP reports and governors support team identify but lacks challenge over key areas of L&M and issues).
set a balanced The school has set a balanced budget with a contingency of less than 5% or a surplus without robust plan for use. VFM is satisfactory
⁷ reports indicate a LA training reports and/or SIP reports indicate tunities. There is little there is take up of CPD opportunities. National rategy initiatives. Strategy initiatives are taken up but are not followed through to evaluate impact.
Leadership shows limited focus and capacity to Leadership is good throughout the school and effect improvement at an appropriate pace shows clear capacity to secure further
