2. MINUTES OF PREVIOUS MEETINGS DATED 15TH OCTOBER 2012

The minutes of the meeting on 15th October were approved.

3. ACTIONS ARISING FROM PREVIOUS MEETINGS

Reports on the Mental Health Services and the Behavioural Services Action Plan

C Burnham /

Action

were considered by the Heads Funding Group but it was decided that additional financial data was also needed.

I Pearson

Once the reports on the Mental Health Services and the Behavioural Services Action Plan have been presented to the HFG they are to be circulated to the Schools Forum members for information.

C Loosen

Adrian Slaughter is awaiting the results of Carbon Reduction Commitment consultation.

A Slaughter

4. DECLARATIONS OF INTEREST

No declarations of interest.

5. SCHOOL FUNDING REFORM- CRITERIA FOR GROWTH FUND / CONTINGENCY FUNDING.

Pupil Number Growth

There were further discussions on determining a criterion for both maintained schools and academies to access the contingency held for additional funding for a growth in pupil numbers at the start of the Autumn Term.

The threshold options were:

30 pupils across school or a % across the school

30 pupils across a year group or a % across a year group

It is difficult in secondary schools to ascertain class size and so it was suggested that a percentage be used, however for a small school a small pupil number increase would cause a large percentage increase.

ACTION: Claire White and Paul Dick to liaise on creating feasible models for both primary schools and secondary schools and decide on a proposal to bring back to the next Schools' Forum.

C White / P Dick

Infant Class Size Funding

There is no infant class size funding factor in the formula funding allocation. However infant class size funding is permitted for in-year pupil growth for increases in Reception and KS1 of less than 30 pupils where an additional class is necessary and the school has not planned for that additional class in its budget. Schools need to take into account that the funding is only for two terms and the following year the funding reverts to pupil numbers only. At least 11 additional pupils are required to fund an M3 pay scale teacher.

DECISION: Criteria for Infant Class Size Funding agreed by the Schools Forum

Schools in Financial Difficulty (Maintained Primary Schools Only)

The Schools Forum agreed the criteria subject to the HFG sharpening some of the wording. The areas to be concentrated on are a definition of "poor Ofsted" and making it clear that a school in deficit <u>may</u> be considered to additional funding if they satisfy the criteria and that the deficit is not due to poor financial management.

If schools do not meet the criteria a longer deficit recovery plan may be required. If the £114k put aside for 2013/14 is not sufficient any overspend will go against the following year's DSG.

The HFG will make the decision on applications for SiFD Funding.

RATES FUNDING 2013/14

Claire White presented a report on two possible funding arrangements for school non domestic rates from 2013/14 following the changes implemented in the school funding reforms.

Option 1

Fund the schools on the previous year actual; in year 1 this will also involve adjusting for the in year adjustments. The schools can still budget for the actual rates which they will know before they have to set their budgets. Any significant difference between the funding and the actual e.g. for revaluations can be a provision in the schools' year end accounts for receiving the income the following year.

Option 2

Fund the schools based on an estimate of their rates for the forthcoming year. Any over estimation or underestimation would be an adjustment to the following year's funding.

DECISION: The Schools Forum agreed that the procedure set out in option 1 is to be used to fund schools' non domestic rates from 2013/14.

7. REVIEW OF DSG FUNDING FOR 2013/14 AND DRAFT BUDGET

Claire White presented a report on the changes to DSG funding in 2013/14. In particular the change from one funding block and one Guaranteed Unit of Funding per pupil into 3 funding blocks (Schools Block, Early Years Block and High Needs Block). The Schools Block and Early Years Block have different GUFs and GUFs do not apply to the High Needs Block. The Early Years GUF will not be known until after the start of the financial year and actual uptake will not be known until the end of the financial year.

The DfE will base the High Needs Block on the actual planned spend 2012/13 with several adjustments including that the LA is only responsible for the top up payments of the pupils that reside in West Berkshire.

The blocks are not ring-fenced so funding can be moved between the blocks and

it may be that if there is not sufficient funding in the High Needs Block that funding may have to be moved from the Schools Block reducing the per pupil funding that the schools receive. The DfE is due to confirm the LA funding allocation in late December and the schools budget is due to be submitted to the EFA by 18th January 2013.

8. UPDATE ON SCHOOLS IN FINANCIAL DIFFICULTY

Clare Warren presented a report on the 3 schools (Fir Tree, John O'Gaunt and Stockcross) that had budgeted for a deficit in 2012/13 and progress made in supporting them.

Fir Tree had budgeted to end 2012/13 with a £72k deficit but as of month 7 it was looking more like £56k.

Stockcross is now forecasting a breakeven position as their budget included a redundancy which is no longer required.

John O'Gaunt has a new Headteacher and School Business Manager and together with the support of the Schools Finance Advisor, who visits approximately once a week, they are reviewing the staffing structure and financial plan.

Like John O'Gaunt The Willows is currently receiving additional financial support and the school is forecasting a small underspend when the additional funding is included.

When the indicative budgets are available from mid December those schools negatively affected and likely to go into deficit will be offered support.

9. DSG MONITORING 2012/13, MONTH 7

Claire White and Ian Pearson presented the DSG monitoring report as at 31st October 2012. The DSG 2012/13 forecast at the end of October is a £317k underspend, which is mostly due to lower SEN out of authority placements.

ANY OTHER BUSINESS.

The Chair has received formal notification from Jo Stewart that due to work commitments she is tendering her resignation from the Schools Forum with immediate effect.

ACTION: Primary Governor vacancy to be advertised.

Meeting closed 6:30 p.m.

Date of next meeting: Monday 21st January 2013

Time: 5pm

Venue: Shaw House

Wes	st Berkshire Schools' Forum
Title of Report:	Final Proposal for School Formula & School Budget 2013/14
Date of Meeting:	21 st January 2013
Contact Officer(s)	Claire White
For Decision	

1. Background

- 1.1 Under the School Funding Reforms the Local Authority were required to develop a new school formula for distributing funding to primary and secondary schools in 2013/14 using new national guidelines. The formula was agreed by Schools' Forum on 1st October 2012, approved by the Council's Executive on 18th October 2012 without any change, and submitted to the Education Funding Agency (EFA) by the deadline of 31st October.
- 1.2The EFA accepted the submission as being compliant, and no changes are required to the formula. However, now that the data from the October 2012 census is available, the final funding rates need to be set, and submitted to the EFA by 22nd January 2013.

2. Final Proposed Funding Rates for Schools Formula

- 2.1 Appendix A provides a breakdown of the funding rates that have been used for the consultation on the formula in the summer 2012, the submission to the EFA in October 2012, and the indicative budget allocations sent to schools in December 2012.
- 2.2 The funding rates used in the EFA submission included adjustments for the new services being delegated via the agreed method and adjustments to pupil numbers in relation to resource units where the pupil numbers are to be excluded, and the uplift for where reception pupil numbers are greater in January compared to the previous October.
- 2.3 The indicative budget allocations are based on the actual October census data. The funding rates for SEN, deprivation, and EAL have been adjusted to keep each of the total funding pots roughly the same, with the unit of funding based on the total number of relevant pupils in each of these categories from the October census data. Non Domestic Rates are as per the 2012/13 actual payments as agreed at the last meeting of the Schools' Forum. Pupil funding rates and the lump sum have been kept the same, which means that schools receive the full funding for any increases in pupil numbers.

- 2.4 As the funding required for the Minimum Funding Guarantee has increased, the cap for gains has had to be reduced to 2.4% per pupil in order to fund the MFG.
- 2.5 Appendix B details the funding changes for each school based on the indicative rates.
- 2.6 The cost using the indicative rates is £94.089m. The Schools Block DSG is confirmed at £94.747m plus £33k adjustment for NQT funding. The centrally retained budget requirement is £671k, leaving £94.109 available to delegate to schools, which is £20k greater than the indicative budget.

3. Recommendations

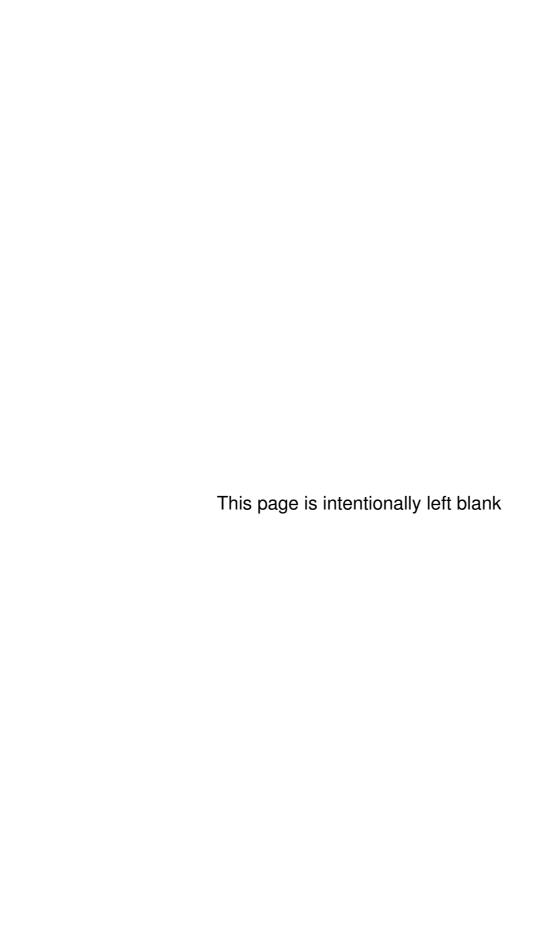

- 3.1 That the centrally retained schools budget of £671k is agreed. This includes a new centrally retained budget for CLA and MPA licences for all state schools, as advised by the DfE on 14th January – no funding has been deducted from school budgets for this.
- 3.2 That as the funding available is just £20k greater than the indicative budget rates sent to schools, the indicative rates are set as final.
- 3.3 That the £20k of funding "left over" be utilised in the high needs block.

Wes	st Berkshire Schools' Forum
Title of Report:	School Funding Reform – Criteria for Growth Fund / Contingency Funding
Date of Meeting:	21 st January 2012
Contact Officer(s)	Claire White
For Decision	

1. Background

- 1.1 Under School funding reform, from April 2013 local authorities can create a growth fund from the DSG in advance of allocating school budget shares. The purpose of the growth fund is to support maintained schools and Academies facing significant pupil number growth. It can also include funding schools where very limited pupil number growth requires an additional class as required by infant class size regulations.
- 1.2 The growth fund will need to be ring-fenced so that it is only used for the purpose of supporting growth in pre 16 pupil numbers to meet basic need. Any funds remaining at the end of the financial year must be added to the following year's DSG and reallocated to maintained schools and Academies through the local formula.
- 1.3 Local authorities are required to provide on a transparent and consistent basis the criteria on which any growth funding is to be allocated. The criteria should both set out the circumstances in which a payment could be made and provide a basis for calculating the sum to be paid.
- 1.4 The Schools' Forum is required to agree the criteria and the total sum to be top sliced from each phase. The Schools' Forum will receive regular reports on the use of the funding.
- 1.5 Maintained primary schools have also opted to de-delegate funding for schools in financial difficulty. The Schools' Forum is required to set criteria for the allocation of this funding.

2. Growth Fund (All Maintained and Academy Schools)

2.1 The recommended criteria for the growth fund is as follows:

If a school experiences significant pupil number growth between the October Census which generates the funding for the following financial year and the following September, the school will be entitled to additional funding for the period September to March for maintained schools or September to August for Academies/Free schools, if the following criteria are met:

- Primary Reception to Year 2 (infant class size) only:
 A school with infant classes which is required to set up an <u>additional class in the Autumn term</u> as required by infant class size regulations, and the school cannot accommodate all its <u>additional</u> reception and Key Stage 1 pupils in classes of 30 or less i.e. the <u>total</u> number of pupils in the 3 year groups exceeds a multiple of 30. (see Appendix A for examples)
- 2. Primary (where infant class size not applicable) only:
 There has been growth of 15% in the number of pupils in one year group
- 3. Secondary only:
 There has been growth of 20% in the number of pupils in one year group
- 4. The school has not exceeded its admission number unless requested to by the LA.
- 5. The school has been required to set up an additional class for that year group and employ an additional teacher.

The funding will be:

- a. For Infant Class size only: the equivalent of the cost of a teacher at M3 (£30,539) for each new class (or the equivalent September 2013 rates if higher), pro rata for the remainder of the financial year PLUS an amount of £200 per additional pupil for learning resources.
- b. For all other: 50% of the current per pupil funding (AWPU) pro rata for the remainder of the financial year.

Before setting up an additional class and employing an additional teacher, schools should be aware that this additional in-year payment is temporary one-off funding for the remainder of the financial year in order to meet the pupil's basic need until full per pupil funding is received the following April. Schools will be required to meet the costs of the additional class from their formula pupil funding and lump sum from the following financial year. Schools accessing the infant class size funding where pupil numbers are just 2 or 3 above the limit, should carefully consider the longer term financial implications of employing an additional teacher (11 additional pupils are needed to pay for a M3 teacher, or 9 additional pupils for a M1 teacher).

- 2.2 The sum to be set aside is £100,000, which will pay for approximately 3 additional classes from September 2013.
- 2.3 Funding requests are to be submitted to Schools' Finance who will make payment following approval by the Head of Education if he is satisfied that the criteria are met. All approvals will be reported to Schools' Forum.

3. Contingency for Schools' In Financial Difficulty (Maintained Primary Schools Only)

- 3.1 The funding for schools in financial difficulty is required to be delegated from April 2013. Each school phase in the maintained sector has the option of dedelegating the funding and continuing to have a centrally retained budget. The primary phase only has opted for de-delegation, and the amount totals £114k in the current year.
- 3.2 In order for primary schools to access this funding, a clear set of criteria needs to be set. The recommended criteria is as follows:

If a school has a deficit budget it <u>may</u> be allocated additional support funding. If a school can meet the following criteria, a bid for additional funding can be made by the school to be considered by the Schools' Forum:

- 1. The school has sought and followed the advice of the Schools' Finance Advisor prior to going into deficit
- 2. The school has (up to) a five year robust deficit recovery plan in place which has been discussed with and verified by the Schools' Finance Advisor.
- 3. Additional funding may be payable for one of the following exceptional unforeseen circumstances which has taken the school into deficit:
 - Payment to maintain current staffing levels to help cover a <u>temporary</u> downturn in pupil numbers, and evidence can be provided that the numbers are likely to recover within a 2 3 year period making downsizing of staff and resultant redundancy costs unreasonable.
 - Payment to maintain current staffing levels on a temporary basis in a school causing concern (i.e. Ofsted category of notice to improve or worse), where to reduce the staffing would be detrimental to the recovery of standards in the short term.
 - Payment to cover staffing costs during a short term interim period whilst restructuring takes place due to an unforeseen sudden permanent downturn in pupil numbers
 - Redundancy payments, where the redundancies are required in order to balance the budget over a 3 5 year period, but these costs will put the school further into deficit if not met (as per the Severance Funding Policy).
- 3.3 In order to access this funding, a school will need to present in person (with the support of the Schools' finance Advisor) a case to a panel as agreed by Primary Heads, who after consideration of the case, will recommend the amount and duration of the financial support to Schools' Forum for approval or not.

Appendices

Appendix A – Examples of Infant Class Size Additional In-Year Funding

Examples of Infant Class Size Additional In-Year Funding

Example 1

	October 2012 Census	October 2013 Census
Reception Pupil Numbers	23	31
Year 1 Pupil Numbers	20	25
Year 2 Pupil Numbers	22	20
Total Pupil Numbers	65	76
Number of Classes run by school	3	3

Although pupil numbers have increased by 11, and the reception class exceeds 30, under infant class size regulations the school is still only required to run 3 classes, therefore no additional in-year funding will be payable. Total pupil numbers would need to exceed 90 to trigger the requirement for a 4th class.

Example 2

	October 2012 Census	October 2013 Census
Reception Pupil Numbers	20	21
Year 1 Pupil Numbers	20	20
Year 2 Pupil Numbers	19	20
Total Pupil Numbers	59	61
Number of Classes run by school	3	3

Total pupil numbers have increased by 2 taking the total over 60 and requiring 3 classes. However the school is already running and funding 3 classes within their existing budget, so no additional in-year funding will be payable – their budget requirement for the year has not changed by the admission of these 2 pupils.

Example 3

	October 2012 Census	October 2013 Census
Reception Pupil Numbers	20	21
Year 1 Pupil Numbers	20	20
Year 2 Pupil Numbers	19	20
Total Pupil Numbers	59	61
Number of Classes run by school	2	3

Same pupil numbers as the above example, except the school were operating with 2 classes. The school is therefore eligible for additional in-year funding if they operate a third class. However if their budget with just 2 extra pupils would not sustain the cost of an additional teacher beyond the following April, then they would need to carefully consider the implications of accepting an additional pupil taking them over 60 (unless exceptions to the regulations apply, such as pupils with a statement of SEN naming the school or pupils moving into the area outside the normal admission round).

Example 4

	October 2012 Census	October 2013 Census
Reception Pupil Numbers	20	30
Year 1 Pupil Numbers	20	20
Year 2 Pupil Numbers	19	21
Total Pupil Numbers	59	71
Number of Classes run by school	2	3

The school were running and funding 2 classes before the September admissions took them over 60 pupils. Additional in-year funding would therefore be payable for the additional class, and the additional 12 pupils will generate enough funding to sustain the cost of the additional teacher from April 2014.

Wes	st Berkshire Schools' forum
Title of Report:	Estimate of DSG Funding 2013/14 and Draft Budget
Date of Meeting:	21 st January 2013
Contact Officer(s)	Claire White
For Discussion	

1. School Funding Settlement 2013/14

- 1.1 The Department for Education (DfE) announced the School Funding Settlement for 2013/14 on 19th December 2012.
- 1.2 From 2013/14, DSG funding is being split into 3 funding blocks, each calculated in a different way. The blocks are not ring fenced, though provide a guideline on how the funding should be allocated. The breakdown of the funding for the 3 blocks is shown in Appendix A.
- 1.3 The **Schools' Block** contains funding delegated to mainstream primary and secondary schools (reception to year 11), and the relatively few central services which can continue to be centrally retained. It includes new delegations to schools from 2013/14 but excludes funding for resource units and top up funding for high needs pupils in mainstream schools. The DfE has also made adjustments for hospital schools and the universal provision for 3 year olds. The DfE has taken the 2012/13 budget, made the relevant adjustments, and divided by the relevant number of pupils from the October 2011 census (excluding resource unit pupils but adding reception uplift) to arrive at the new GUF. The actual Schools' Block GUF for 2013/14 is confirmed at £4,359. There were a total of 21,736 relevant pupils in the October 2012 census figures for primary and secondary schools, and the Schools' Block DSG has been confirmed as £94.747m. An additional lump sum of £33k has been added for NQT funding, already delegated.
- 1.4 The **Early Years Block** contains funding for 3 and 4 year olds funded via the Early Years Single Funding Formula, plus centrally retained expenditure on children under 5. The actual 2013/14 GUF has been confirmed at £3,911. Our initial DSG allocation is £5.777m based on the January 2012 census. This will be updated in the Summer based on the January 2013 census, with the final allocation for 2013/14 being confirmed in the Summer of 2014 based on 5/12 of the January 2013 census, and 7/12 of the January 2014 census. Funding for 2 year olds has also been added to the DSG as a total amount, £1.073m (based on the DfE estimate of number of 2 year olds accessing this funding), although this is not ring fenced for 2 year olds or the early years block. In addition, 50% of the 2012/13 allocation of the 90% funding floor for 3 year olds has been allocated as transitional funding at £364k, which will end this year.

1.5 The High Needs Block contains funding for Special Schools, Pupil Referral Units, Resource Units, top up funding for high needs pupils in mainstream schools, funding for high needs pupils in non maintained special schools, plus centrally retained budgets for SEN support services. The funding to be allocated is based on the actual LA budget for 2012/13, and bids have been made to the DfE where there is an increase in demand for places. Adjustments have been made for recoupment, as the LA where the pupil resides will be responsible for top up payments. The estimated DSG for this block is currently £16.553m, though further adjustments for growth and further education are still expected.

2. Estimated DSG Funding and Budget Requirement 2013/14

2.1 The following table provides the current DSG allocation notified for 2013/14, compared to an estimate of the budget requirement. The breakdown of the budget, split between the three blocks is shown in Appendix B.

	GUF	Pupil No's	DSG Funding £'000	Budget £'000	Headroom/ (Shortfall) £'000
Schools Block	£4,359	21,736 (actual Oct 12)	£94,780	£94,760	£20
Early Years Block	£3,911	1,477 (actual Jan 12)	£7,214	£7,308	(£94)
High Needs Block	n/a	n/a	£16,553	£16,355	£198
Total			£118,547	£118,423	£124

2.2The DfE has also announced the pupil premium grant (PPG) rates for 2013/14. The rate for pupils eligible for free school meals (Ever6) and children looked after has increased from £623 to £900, and the rate for Service Children (Ever3) has increased from £250 to £300. This is approximately £900k of additional funding for West Berkshire pupils. The final PPG funding allocations for 2013/14 will be based on the January 2013 census.

3. Next Steps

- 3.1 The Schools Block DSG is confirmed and the funding rates for school budgets are required to be approved by the Schools' Forum and submitted to the DfE by 22nd January.
- 3.2The Early Years budget is being considered by the Early Years Steering Group and will be set according to current year take up with no change to the overall funding rates. The assumption is that any in year growth will be met by an equivalent increase in DSG.
- 3.3 The most difficult task is determining the high needs budget for 2013/14, particularly as the final DSG is still not confirmed. The draft top up rate proposals for our own schools are in another report, but the top up rates for children placed in other LA's are not yet known and have currently been assumed at an average of £20k per place.

- 3.4 Although our proposed top up rates exceed our current budgets, savings in other areas of the high needs budget, particularly in out of county placements, and the fact that the change in the recoupment arrangements have resulted in a slight reduction to our overall costs, means that the proposed high needs budget is realistic. A high contingency will need to be in place particularly in the first year due to the volatility of this budget, with top up funding following the child and the uncertainties with respect to demand.
- 3.5 The final proposals for the early years and high needs budgets will be brought to the next meeting of the Schools' Forum.

Wes	West Berkshire Schools' Forum							
Title of Report: Early Years Funding 2013/14								
Date of Meeting:	21 st January 2013							
Contact Officer(s) Claire White								
For Discussion								

1. Three and Four Year Old Funding

- 1.1 There are minor changes required in 2013/14 to the Early Years Single Funding Formula (EYSFF) for 3 and 3 year olds in nursery provision. The current method used to fund providers is compliant with the revised rules, but the way the formula is set out requires change.
- 1.2 The Early Years Block of the DSG grant will not be finalised until summer 2014. It is to be based on 5/12 of the January 2013 census numbers, and 7/12 of the January 2014 census numbers. It is therefore very difficult to predict what the actual funding allocation will be. When comparing funding based on the January 2012 census to expenditure based on actual hours of provision paid for in the last year (January to December 2012) there is a small shortfall in funding. However, due to the unpredictability of the funding, the Steering Group are looking at leaving the funding rates largely unchanged for 2013/14, after the minor changes to the formula have been taken into account.
- 1.3 The final formula and funding rate proposals will be brought to the next meeting of the Schools' Forum.

2. Two Year Old Funding

- 2.1 The funding for two year olds has now been added to the DSG, and the local authority is required to set the funding rate as part of the EYSFF. The guidelines state that providers are to be funded on the basis of a flat hourly rate with no additional supplements.
- 2.2 Two lots of funding have been received. £771k for delivering the free statutory entitlement for the 20% eligible children (from September 2013). £303k is a notional amount and is for creating non-statutory places in preparation for the 40% eligible 2 year olds from September 2014.
- 2.3 The DSG funding for the statutory requirement has been calculated by the DfE based on their estimate of 252 eligible children at £5.36 per hour. The DfE has applied different funding rates to local authorities depending on area cost adjustments the average is £5.09 per hour.

- 2.4 The number of pupils eligible is based on the percentage of the total number of four to six year olds eligible for free school meals multiplied by the population estimates for 2 year olds in each local authority.
- 2.5 The Early Years Steering Group is recommending a flat hourly rate of £5.26 per hour. This is based on a ratio of 4 children to one adult (nursery nurse) using the following calculation:
 - Annual Salary/Resource cost of £20,000 / 4 children / 0.6 PTE = £3,000 pa £3,000 / 38 weeks / 15 hours = £5.26 per hour
- 2.6 This compares favourably with the current rate of £4.85 per hour.
- 2.7 The DSG funding allocation will also need to cover central costs for determining eligibility of children for this provision.
- 2.8 The funding is not ring fenced, and it is not expected that there will be take up from as many as 252 children. Any 2 year old funding not used could be set against the funding requirement for three and four year olds. It would, however, be a high risk strategy to increase the funding rate for two year olds above the baseline, as future years DSG funding could be based on actual take up.

Wes	West Berkshire Schools' Forum							
Title of Report: High Needs Pupil Funding 2013/14								
Date of Meeting:	21 st January 2013							
Contact Officer(s)	Claire White							
For Discussion								

1. Background

- 1.1 There are significant changes to how high needs pupils are to be funded from 2013/14. This has an implication on both how individual schools are funded for these pupils, and the funding available from the new "High Needs Block" of DSG in setting top up fees.
- 1.2 The funding implications are detailed in another report on this agenda. This report informs the Schools' Forum of the draft funding proposals for each type of high needs provider. The proposals have been developed by groups of LA officers in liaison with the relevant schools.

2. Mainstream Schools

- 2.1 The funding for the first £6,000 of an individual pupil's high level needs is met from the schools delegated funding. Needs above £6,000 are met by the commissioner of the child's place the local authority where the child lives through a top of payment.
- 2.2 The top up payment follows the child in real time.
- 2.3 The banding system and amounts for the payment of top ups is detailed in Appendix A. The new system requires an additional £130k of funding from the High Needs budget (which includes the increase in number of statements during 2012/13).
- 2.4 The amounts payable to each school under the new system (delegated SEN funding plus top ups) have been compared to current cost of statements. Where this falls short, it is proposed that an additional payment is made. This is detailed in Appendix B. This will currently require an additional £30k of funding from the high needs budget. Consideration may also be given to allocating additional funding to schools to ensure a minimum SEN budget to enable schools to pay for all low level special needs (costing less than £6k), and this proposal is also included in Appendix B for discussion.

3. Resource Units in Mainstream Schools

- 3.1 Resource units are to be funded separately from the main school budget, and the pupils in resource units are no longer counted for funding purposes, and funding is not received for them in the main school budget.
- 3.2 The DfE agree the number of places in each resource unit, and £10,000 is paid per place.
- 3.3 Each individual pupil's needs are assessed, and where the cost is greater than £10,000 a top up payment is made by the commissioner of the place.
- 3.4 The top up payment follows the child in real time.
- 3.5 The LA has developed a 3 tier banding system for each resource unit, which is detailed in Appendix C. Most schools gain funding, but due to the number of pupils from other LA's there will be a saving to the current budget.

4. Special Schools

- 4.1 Like Resource Units, Special schools are to be funded at £10,000 per agreed number of places, with top up funding agreed for each individual child based on their assessed needs.
- 4.2 The top up payment is made by the commissioner of the place and follows the child in real time.
- 4.3 The LA has worked closely with the 2 special schools over the last 2 years to develop a banding system which reflects the actual cost of specific needs of individual pupils. This is detailed in Appendix D.
- 4.4 Implementation of the banding system will result in a significant increase in cost, but it puts in place a funding system whereby the schools will be able to take children with greater needs, avoiding expensive placements out of county.
- 4.5 As a large proportion of the children are from other local authorities, some of the increase in cost will fall on these LA's and discussions have already taken place with Reading in respect of their placements in Brookfields school – in many cases Reading are already paying some additional costs through recoupment. The net effect on the budget is an increase of approximately £1m.

5. Pupil Referral Units

- 5.1 PRU's are also to be funded per agreed number of places, but at £8,000 per place, with top up funding agreed for each individual child based on their assessed needs.
- 5.2 The 2 PRU's have worked on a banding system which reflects the actual cost of provision for different types of needs. This is detailed in Appendix E.

- 5.3 The commissioner of the place for permanent exclusions is the LA placing the child. However for fixed term exclusions, early intervention, and off site direction the commissioner is the school.
- 5.4 Secondary schools currently pay a daily rate for fixed term exclusions, and the proposed rate is not that different to the current rate. However, further work is required on finalising the top up rates and determining the funding flows, i.e. who is responsible for the payments, particularly where a child has a statement for SEN.

6. Next Steps

6.1 In order to implement the above proposals, the estimated funding needs to be agreed to be met from the High Needs budget, and the draft position is summarised as follows:

	Current Budget less Recoupment £'000	Draft Budget (WBC only) £'000	Difference £'000
Mainstream Top Ups	598 - 47 = 551	681	130
Additional Mainstream Funding	0	44	44
Resource Units	2,179 – 150 = 2,029	1,918	-111
Special Schools	6,334 – 1,464 = 4,870	5,951	1,081
Pupil Referral Units	1,524 + 9 = 1,533	2,015	482
Contingency	250	250	0
TOTAL	9,233	10,859	1,626

- 6.2 The High Needs DSG funding block has not yet been confirmed, but will be in the region of £16.5m. Taking the above draft costs into account, an estimate of the cost of pupils in other LA schools, and the other centrally retained funding requirements from the high needs block, there is enough funding available, though the figures are draft at this stage.
- 6.3A number of savings have been made in the centrally retained high needs block, including £1m on out of county SEN placements, which largely offsets the rise in costs in special schools as they admit more complex pupils.
- 6.4 The final proposals will be brought back to the next meeting of the Schools' Forum. Once approved, schools will be informed of the new arrangements, and the funding bands will be posted onto the School Finance Web site.

Appendices

Appendix A – Mainstream Schools – Top Up Rates/Bandings

Appendix B – Proposed Additional Funding for Schools with Disproportional Large Numbers of High Needs Pupils

Appendix C – Resource Units – Top Up Rates/Bandings

Appendix D - Special Schools - Top up Rates/Bandings

Appendix E – Pupil Referral Units – Top Up Rates/Bandings

Wes	West Berkshire Schools' Forum							
Title of Report: DSG Monitoring 2012/13, Month 9								
Date of Meeting:	21 st January 2012							
Contact Officer(s)	Claire White, Ian Pearson							
For Discussion								

1. Background

- 1.1 The main source of funding for schools is the Dedicated Schools Grant (DSG). It is a ring fenced specific grant and can only be used on school/pupil activity.
- 1.2The grant is calculated by multiplying a guaranteed unit of funding per pupil (set by the DfE) by the actual pupil numbers from the January census count (so January 2012 census for 2012/13 budget).
- 1.3 The use of the grant is split between:
 - a. The Individual School's Budget the ISB or delegated budget.
 - b. The Centrally Retained School's Budget the non delegated budget
- 1.4 The Local Authority uses a local formula to distribute the ISB to schools.
- 1.5 Centrally Retained Overspends, unless funded from outside the DSG, are carried forward and top sliced from the following year's DSG allocation. Underspends must be carried forward to support the school's budget in future years.
- 1.6 The Authority and Schools' Forum are responsible for ensuring that the DSG is deployed correctly, and monitoring of spend against the DSG needs to take place regularly to enable decision making on overspends/underspends and to inform future year budget requirements.

2. Monitoring Position as at Month 9 (31 December 2012)

2.1 The following is the position as at the end of December 2012. A further analysis per cost centre is shown in Appendix A:

	Total Budget £m	Forecast Variance £m	Forecast Outturn £m
ISB Delegated Budget	84.010	0	84.010
Centrally Retained Budget	9.212	-1.456	7.756
Support Service Recharges	0.721	0	0.721
Total Expenditure	93.943	-1.456	92.487
DSG Grant	-93.943	0	-93.943
Net Budget	0	-1.456	-1.456

- 2.2 All delegated (ISB) money is transferred to schools, and any overspends or underspends on individual schools budgets are carried forward on the schools budget.
- 2.3 The Centrally Retained Budget is currently showing a significant net underspend of £1.5m. This is largely due to less than anticipated SEN placements in Out of Authority non maintained schools, and additional recoupment income from other Local Authorities for their SEN children placed in our schools.
- 2.4 Although under the new funding regulations from April 2013 carry forward of underspent centrally retained DSG will still happen, there will be less flexibility about how this funding can be allocated for example, no changes can be made to school formula allocations in-year. However, further allocations to schools could however still be made in the current financial year.

3. School Contingency Budget

3.1 Within the Centrally Retained Schools Budget, three contingency budgets are held for schools. The position on these budgets as at 31st December 2012 is as follows:

	Total Budget £	Amount Delegated	Commitments £	Balance Available £
School Contingency (90235)		£		L
Newly Qualified Teachers Infant Class Size Resource Unit	275,000 50,000 50,000	173,350 89,732 -7,792		
Link Group Funding Headroom to be Allocated	7,000 654,640	-7,792 0 311,021	200,000	
Rates Adjustments LACSEG Contingency	0 58,020	53,192 0	,	
Other (Trinity split site) Excess Balance Clawback Total 90235	0 0 1,094,660	3,205 -7,496 615,212	200,000	279,448
SEN Contingency (90237) New Statements Recouped from other LA's Other	200,000	169,894	200,000	210,110
Total 90237	200,000	169,894	0	30,106
Schools in Financial Difficulty (90230)				
John O'Gaunt The Willows	295,000 113,830	295,000 113,832		
Other (redundancy payments)	400.000	100.000		
Total 90230 Total – All Contingency Budgets	408,830 1,703,490	408,832 1,193,938	200,000	0 309,554
