

Re application ref 12/02003/Lqn
The Victoria arms Mortimer

I write regarding the above application for live music variation.

We would like to request that this application is not approved for the following reasons:

We have two children under 5, we already hear the noise from the venue that occasionally wakes our children, and us. Extension of the live music license we consider anti-social and detrimental in particular to young children in the near vicinity.

Mortimer is a small village and is not a place for live music until very late, with no public transport links at the proposed late hours we feel it likely nearby roads will be a target for anti-social behaviour at this late hour.

We respectfully ask that this quiet village housing mainly young families and elderly residents is respected.

Kind regards

Mr and Mrs Milne
