

## Appendix 1

Adult Social Care		
Ref.	Target Narrative	Further explanation on indicator
ASC1	<b>Adult Social Care Framework 2C Part 2</b>  <b>This data is sourced from NHS England</b>	This measures the impact of hospital services (acute, mental health and non-acute) and community-based care in facilitating timely and appropriate transfer from all hospitals for all adults. This indicates the
ASC2	          <b>Adult Social Care Framework 2B Part 1</b>	(Small cohort that may fluctuate quarter to quarter due to unexpected deaths, health alerts or severe weather i.e. extremely cold winter - events which are outside of our control). The proportion of older people aged 65 and over discharged from hospital to their own home or to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home (including a place in extra care housing or an adult placement scheme setting), who are at home or in extra care housing or an adult placement scheme setting 91 days after the date of their discharge from hospital. This measures the effectiveness of reablement services.
ASC3		The use of data from the previous year is not appropriate for setting a baseline due to the new statutory reporting framework (SALT). The reports to extract relevant data aligned to statutory reporting are still to be completed.
ASC4		Please see explanation for ASC3. In previous years, the denominator included clients with electrical equipment services, respite and short term services but excluded professional support. The denominator is now based on Long Term Service clients in the year so now includes Community Mental Health Tea, professional support but excludes all short term services and low level support.

Children's Social Care		
Ref.	Target Narrative	Further explanation on indicator
CSC1	<b>Target numbers for CSC 1, 2 and 3 have been set by Children's Services and are set on the basis of the level that the service aspire to get the figures back to. Target numbers are what are considered as more manageable for the service. Trend data is based on the last quarter.</b>	Looked after child: These are children who are looked after by the authority
CSC2		Child Protection Plan: A detailed inter-agency plan setting out what must be done to protect a child from further harm, to promote the child's health and development and if it is in the best interests of the child, to support the family to promote the child's welfare.
CSC3		Section 47 Enquiry: Where there is reasonable cause to suspect that a child is suffering, or likely to suffer, significant harm, the local authority is required under s47 of the Children Act 1989 to make enquiries, to enable it to decide whether it should take any action to safeguard and promote the welfare of the child.
CSC4	<b>Target Numbers come from those set in Children's Services' Service Plan. Trend data is based on the last quarter.</b>	Single Assessments: The single assessment is a new assessment document. It is gradually replacing the initial and core assessments by combining both within one document.
