Executive Report

1. Introduction

- 1.1 The LSCB set up a Task & Finish Group in 2014. The aim of the group was to scope local statutory responses to FGM and to develop recommendations for action based upon policy recommendations from the intercollegiate document Tackling FGM in the UK 2013. This will support a robust multi-agency and community approach to safeguarding children at risk of FGM across Berkshire West.
- 1.2 The action plan contained in the intercollegiate document was used as a starting point to review the local response to FGM. This is attached at appendix 1.
- 1.3 The task and finish group has established that across Berkshire West there is some awareness of FGM amongst local agencies and that some agencies are developing good practice to recognise and respond to women who have suffered FGM.
- 1.4 However, there is much still to be done locally. The key policy recommendations contained in the 2013 document are not fully addressed locally. A summary document is contained at appendix 1.

2. Equalities

- 2.1 It is known that the number of communities affected by FGM is growing and with increased migration from the countries where FGM is widely practised, more girls in the UK are at risk of undergoing FGM.
- 2.2 Local implementation of the recommendations in the report will actively promote the protection of girls living in Berkshire West who are identified as being at risk of FGM.
