Dear Sharon

On the issue of blue notices for Calcot, our primary agent has endeavoured to speak with the agent in the Calcot area who displayed the notices, unfortunately he is off work with flu however he has already provided confirmation as follows:

1. Notices erected Monday 18th December 2017 at 11.20 a.m.
2. Replacement notices erected 3rd January 2018 at 2.22 p.m.

I attach photos of the same including the wrong gate illustrating that this was undertaken and the number of notices which were put up.

When it was identified that the notices had been blown down because of the adverse weather had all the notices gone. It would appear from the photographs that the agent erected four different notices some of which were secured by parcel tape but others with cable ties and I am suspicious that all would have gone with the snow.

As soon as I receive more details from the agent as to times and dates of revisits I will let you know but I hope this assists.

Yours sincerely

Michelle Hazlewood
