

Appendix 3 Draft conditions

1. Commencement

The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. Plans

The development hereby permitted shall be carried out in accordance with the approved drawing plans and documents:

Proposed Floor plans, reference 268 053 Rev A, received 01/09/2020

Proposed Elevations, reference 268 060 Rev B, received 26/08/2020

Proposed Street Scene, reference 268 062 Rev A, received 26/08/2020

Location Plan, reference 268 001, received 11/05/2020

Recommendations of Preliminary Roost Assessment with Dusk and Dawn Echolocation Report, dated September 2020, by Syntegra Consulting, reference 19-5948, received 07/07/2020:

8.9. To ensure that this site complies with wildlife legislation and the National Planning Policy Framework, the following recommendations are made:

8.9.1. As the gable wall has notable ivy cladding, suitable for nesting birds, works are best carried outside of the nesting bird season, or unless first checked by a suitably qualified ecologist.

8.9.2. The dusk and dawn echolocation surveys have concluded a likely absence of an active roosting space, given the lack of numbers and confirmed roost type, an EPSL cannot be granted and it is advised that works proceed under the Outline Bat Mitigation Plan within Appendix VI (including figures 1 and 2).

8.9.3. Given the evidence of the site being used by foraging and traversing individuals, it is advised that all future lighting is direct, low lux, low light spill, hooded design and if possible, motion sensed.

Reason: For the avoidance of doubt and in the interest of proper planning.

3. Electric Charging Point

No development above ground level shall take place until details of a 7kw (minimum) electric vehicle charging point have been submitted to and approved in writing by the Local Planning Authority. The dwelling shall not be occupied until an electric vehicle charging point has been provided in accordance with the approved drawings. The charging point shall thereafter be retained and kept available for the potential use of an electric car.

Reason: To promote the use of electric vehicle. This condition is imposed in accordance with the National Planning Policy Framework (February 2019), Policies CS13 and CS14 of the West

Berkshire Core Strategy (2006-2026), Policy P1 of the Housing Site Allocation DPD and Policy TRANS1 of the West Berkshire District Local Plan 1991-2006 (Saved Policies 2007).

4. Parking/turning in accord with plans

The dwelling shall not be occupied until the vehicle parking and turning spaces have been surfaced, marked out and provided in accordance with the approved plans. The parking and turning spaces shall thereafter be kept available for parking of private motor cars at all times.

Reason: To ensure the development is provided with adequate parking facilities, in order to reduce the likelihood of roadside parking that would adversely affect road safety and the flow of traffic. This condition is imposed in accordance with the National Planning Policy Framework, Policy CS13 of the West Berkshire Core Strategy (2006-2026) and Policy TRANS1 of the West Berkshire District Local Plan 1991-2006 (Saved Policies 2007).

5. Construction Method Statement

No development shall take place until a Construction Method Statement has been submitted to and approved in writing by the Local Planning Authority. The development shall be carried out in accordance with the approved details. The statement shall provide for:

- (a) The parking of vehicles of site operatives and visitors
- (b) Loading and unloading of plant and materials
- (c) Storage of plant and materials used in constructing the development
- (d) Wheel washing facilities
- (e) Measures to control the emission of dust and dirt during construction
- (f) A scheme for recycling/disposing of waste resulting from demolition and construction works
- (g) A site set-up plan during the works

Reason: To safeguard the amenity of adjoining land uses and occupiers and in the interests of highway safety. This condition is imposed in accordance with the National Planning Policy Framework, Policies CS5 and CS13 of the West Berkshire Core Strategy (2006-2026), Policy TRANS 1 of the West Berkshire District Local Plan 1991-2006 (Saved Policies 2007).

6. Surfacing of access

No development above ground level shall take place until details of the surfacing arrangements for the vehicular access to the highway have been submitted to and approved in writing by the Local Planning Authority. Such details shall ensure that bonded material is used across the entire width of the access for a distance of 3 metres measured back from the carriageway edge. Thereafter the dwelling shall not be occupied until the surfacing arrangements have been constructed in accordance with the approved details.

Reason: To avoid migration of loose material onto the highway in the interest of road safety. This condition is imposed in accordance with the National Planning Policy Framework and Policy CS13 of the West Berkshire Core Strategy (2006-2026).

7. Cycle Storage

The dwelling shall not be occupied until the cycle parking has been provided in accordance with the approved drawings and this area shall thereafter be kept available for the parking of cycles at all times.

Reason: To ensure the development reduces reliance on private motor vehicles and assists with the parking, storage and security of cycles. This condition is imposed in accordance with the National Planning Policy Framework, Policy CS13 of the West Berkshire Core Strategy (2006-2026) and Policy TRANS1 of the West Berkshire District Local Plan 1991-2006 (Saved Policies 2007).

8. Work hours

No construction works shall take place outside the following hours:

7:30am to 6:00pm Mondays to Fridays;
8:30am to 1:00pm Saturdays;
nor at any time on Sundays or Bank Holidays.

Reason: To safeguard the amenities of adjoining land uses and occupiers. This condition is imposed in accordance with the National Planning Policy Framework (February 2019), and Policy CS14 of the West Berkshire Core Strategy (2006-2026), and Policies OVS5 and OVS6 of the West Berkshire District Local Plan 1991-2006 (Saved Policies 2007).

9. Hard surface materials

No development above ground level shall take place until details, to include a plan, indicating the means of treatment of the hard surfaced areas of the site, has been submitted to and approved in writing by the Local Planning Authority. The hard surfacing shall be completed in accordance with the approved scheme before the dwelling hereby permitted is occupied. The approved hard surfacing shall thereafter be retained.

Reason: In the interests of visual amenity. This condition is imposed in accordance with the National Planning Policy Framework (February 2019), Policies CS14 and CS19 of the West Berkshire Core Strategy (2006-2026), and Supplementary Planning Document Quality Design (June 2006).

10. External Elevation Materials

No development above ground level shall take place until a schedule of the materials to be used in the construction of the external surfaces of the dwelling and hard surfaced areas hereby permitted has been submitted to and approved in writing by the Local Planning Authority. This condition shall apply irrespective of any indications as to these matters which have been detailed in the current application. Samples of the materials shall be made available for inspection on request. Thereafter the development shall be carried out in accordance with the approved materials.

Reason: To ensure that the external materials respect the character and appearance of the area. This condition is applied in accordance with the National Planning Policy Framework, Policies CS14 and CS19 of the West Berkshire Core Strategy (2006-2026), and Supplementary Planning Document Quality Design (June 2006).

11. Removal of PD Rights

Notwithstanding the provisions of Article 3 of the Town and Country Planning (General Permitted Development) Order 1995 (as amended) (or any order revoking, re-enacting or modifying that Order), no extensions, alterations, buildings or other development which would otherwise be permitted by Schedule 2, Part 1, Classes A, B, C, D or E of that Order shall be carried out, without planning permission being granted by the Local Planning Authority on an application made for that purpose.

Reason: To protect the sensitive nature of the open countryside and in the interests of respecting the character and appearance of the surrounding area and landscape. This condition is imposed in accordance with the National Planning Policy Framework (February 2019) and Policies CS14 and CS19 of the West Berkshire Core Strategy (2006-2026) and policy C3 of the Housing Site Allocations Development Plan Document (2017).

12. Removal of Spoil

No development above ground level shall take place until full details of how all spoil arising from the development will be used and/or disposed have been submitted to and approved in writing by the Local Planning Authority. These details shall:

- (a) Show where any spoil to remain on the site will be deposited;
- (b) Show the resultant ground levels for spoil deposited on the site (compared to existing ground levels);
- (c) Include measures to remove all spoil (not to be deposited) from the site;
- (d) Include timescales for the depositing/removal of spoil.

All spoil arising from the development shall be used and/or disposed of in accordance with the approved details.

Reason: To ensure appropriate disposal of spoil from the development and to ensure that ground levels are not raised in order to protect the character and amenity of the area. This condition is imposed in accordance with the National Planning Policy Framework (February 2019), Policies CS19 of the West Berkshire Core Strategy (2006-2026).

13. Hard landscaping (prior approval)

Notwithstanding the details of the approved plans, the dwelling hereby permitted shall be occupied until the hard landscaping of the site has been completed in accordance with a hard landscaping scheme that has first been submitted to and approved in writing by the Local Planning Authority. The hard landscaping scheme shall include details of any boundary treatments (e.g. walls, fences) and hard surfaced areas (e.g. driveways, paths, patios, decking) to be provided as part of the development.

Reason: A comprehensive hard landscaping scheme is an essential element in the detailed design of the development, and is therefore necessary to ensure the development achieves a high standard of design. These details must be approved before the dwellings are occupied because insufficient information has been submitted with the application, and it is necessary to ensure that the scheme is of a high standard. This condition is applied in accordance with the National Planning Policy Framework, Policies CS14 and CS19 of the West Berkshire Core Strategy (2006-2026), and Quality Design SPD.

14. Soft landscaping (prior approval)

Notwithstanding the details of the approved plans, the dwelling hereby permitted shall be occupied until a detailed soft landscaping scheme has been submitted to and approved in writing by the Local Planning Authority. The soft landscaping scheme shall include detailed plans, planting and retention schedule, programme of works, and any other supporting information. All soft landscaping works shall be completed in accordance with the approved soft landscaping scheme within the first planting season following completion of building operations / first occupation of the new dwelling (whichever occurs first). Any trees, shrubs, plants or hedges planted in accordance with the approved scheme which are removed, die, or become diseased or become seriously damaged within five years of completion of this completion of the approved soft landscaping scheme shall be replaced within the next planting season by trees, shrubs or hedges of a similar size and species to that originally approved.

Reason: A comprehensive soft landscaping scheme is an essential element in the detailed design of the development, and is therefore necessary to ensure the development achieves a high standard of design. This condition is applied in accordance with the National Planning Policy Framework, Policies CS14, CS17, CS18 and CS19 of the West Berkshire Core Strategy (2006-2026), and Quality Design SPD.

15. Tree protection

No development (including site clearance and any other preparatory works) shall commence on site until a scheme for the protection of trees to be retained is submitted to and approved in writing by the Local Planning Authority. Such a scheme shall include a plan showing the location of the protective fencing, and shall specify the type of protective fencing. All such fencing shall be erected prior to any development works taking place and at least 2 working days notice shall be given to the Local Planning Authority that it has been erected. It shall be maintained and retained for the full duration of works or until such time as agreed in writing with the Local Planning Authority. No activities or storage of materials whatsoever shall take place within the protected areas without the prior written agreement of the Local Planning Authority.

The protective fencing should be as specified at Chapter 6 and detailed in figure 2 of B.S.5837:2012.

Reason: To ensure the enhancement of the development by the retention of existing trees and natural features during the construction phase in accordance with the objectives of the NPPF and Policies CS14, CS18 and CS19 of West Berkshire Core Strategy 2006-2026. A pre-commencement condition is necessary because insufficient detailed information accompanies the application; tree protection installation measures may be required to be undertaken throughout the demolition/construction phase and so it is necessary to approve these details before any development takes place.
