# IMPLEMENTING ELECTRONIC GOVERNMENT RETURN 2006 (IEG6)

*“Meeting the targets for e-government”*

*Proforma for esd-toolkit entry*

*This is the proforma for IEG6 returns. A copy of this proforma will be published for online data entry via [www.esd-toolkit.org](http://www.esd-toolkit.org) from March 2006. Please note that the deadline for IEG6 submissions via the esd-toolkit is midday on Monday 10 April 2006.*

# IMPLEMENTING ELECTRONIC GOVERNMENT RETURNS 2006 (IEG6)

## Introduction

This IEG return is an essential part of the national monitoring process for assessing electronic local service delivery capability against the 2005 target and supports the delivery of priority outcomes for local e-government. It is an important feedback mechanism for assessing progress towards realising the benefits from our investment in e-government and the use of IEG funding in individual local authorities.

The Office of the Deputy Prime Minister's (ODPM) SR2002 Public Service Agreement (PSA) involves improving delivery and value for money of local services within a framework of national targets and policies. This includes:

- assisting local government to achieve 100% capability in electronic delivery of priority services by 2005, in ways that customers will use.

Building on the work undertaken by Sir Peter Gershon in his independent review of public sector efficiency<sup>1</sup>, SR2004 sets the ODPM a new PSA target on local government:

- by 2008, improve the effectiveness and efficiency of local government in leading and delivering services to all communities

This equates to a target for local services of achieving 2.5% efficiency gains per year, amounting to at least £6.45bn per annum by 2007/08. Clearly, e-government will make a substantial contribution towards the achievement of this target. The ODPM is working in partnership with local authorities and their representative national organisations to help achieve the specified objectives, including providing a summary of efficiency gains arising from the implementation of local e-government.

The format of the IEG return is subject to consultation. Last year, this helped to achieve a 100% return rate of IEG5 submissions from local authorities. As previously, the format of the IEG6 return is intended to simplify the return process for local authorities through a self-assessment approach. Successful completion of the IEG6 return also demands awareness of the ODPM's National Strategy for Local e-Government published in November 2002, deliverables from the National Project programme and the priority outcomes for local e-government<sup>2</sup>. Further details on all of these areas can be found at the ODPM's local e-government portal website [www.localgov.gov.uk](http://www.localgov.gov.uk).

E-Government is a key tool in delivering local services. Within the CPA process, those councils that have not done well in achievement, investment, capacity or performance management may particularly need to consider the role that e-government can play as part of a wider strategy for improvement planning.

The proforma format for IEG6 returns complies with Government commitments to reduce service plan requirements for local authorities, whilst balancing the need for authorities to supply statistical information for the purpose of monitoring national progress on the implementation of local e-government. This particular return marks the end of the IEG programme and will be used as a key reference document in the audit process for assessing how related grant funding has been used.

"Excellent" CPA authorities are requested to continue to comply with requests for IEG data in order to assist in benchmarking national progress, to demonstrate their commitment to e-government and appropriate use of IEG capital grant. In particular, the fourth year of IEGs represents a crucial point

of reference as local authorities move from the investment to the delivery phase of their local e-government programmes.

This proforma is intended to standardise Implementing Electronic Government (IEG) returns for 2006. It has been prepared for English County, District, Unitary Councils, London Boroughs, the Corporation of London, the Greater London Authority, London Development Agency, Transport for London who are subject to the Best Value Performance Indicator 157 and have been requested to prepare these statements. An amended version of this IEG6 proforma is available to National Park Authorities reflecting their different priority outcome responsibilities. Please note that Fire & Rescue authorities are not required to submit an IEG6 return, although county councils with responsibility for this service should include fire and rescue data as part of their general return.

### Priority Outcomes

Practitioner guidance on the interpretation of the priority outcomes is available from <http://www.idea-knowledge.gov.uk/idk/core/page.do?pagelId=1704073>. All enquiries on policy matters relating to the priority outcomes should be addressed to the Local e-Government team at the ODPM. Authorities making a commitment to the Government Connect initiative ([www.govconnect.gov.uk](http://www.govconnect.gov.uk)) are asked to comment accordingly in Section 1 of the IEG6 proforma, in order that this status can be noted in any assessment of progress.

### Funding & Completeness

You should complete the IEG6 return on the basis that it is a required reference document to provide evidence to auditors of how IEG grant funding has been used. You should consult with relevant members of the ODPM's Local e-Government team for clarification of what is required to complete the proforma fully or to request assistance.

### Approval & Publication

It is important that the information contained in your completed IEG6 proforma is approved by the Council before submission and that adequate time for this is built into the timetable. Please note that the esd-toolkit entry process allows you to save a pdf copy of your IEG6 return to facilitate its approval by Members. You are also reminded to note any requirements for disclosure of this information on your public website, in line with your authority's approved Publication Scheme under the requirements of the Freedom of Information Act 2000.

### What's New in the Proforma?

The IEG6 proforma purposely does not contain any substantive changes from December's IEG5 proforma. However, it does contain minor updates to reflect date-related changes.

## Submission

Please note that submissions will only be accepted online via the Electronic Service Delivery (ESD) toolkit supported by the Improvement & Development Agency (IDEA) ([www.esd-toolkit.org](http://www.esd-toolkit.org))<sup>3</sup>. Councils must make individual submissions - partnership returns are not acceptable.

You should allow adequate time to register and acquaint yourself with this facility prior to the submission deadline. Registration is free, and is both sufficient for the purposes of IEG6 submission and for obtaining a copy of the local Government Services List (LGSL) needed for BVPI 157 calculation.

Please do not hesitate to contact relevant members of the ODPM Local e-Government team should you require further information or clarification. Contact details can be found on the last page of this guidance.

## PROFORMA CONTENT

You are asked to summarise the plans and progress of your local authority according to the information requested below, as follows:

**Section 1 – Priority Outcomes (self-assessment)**

**Section 2 – Change Management (self-assessment)**

**Section 3 – BVPI 157**

**Section 4 – Access Channel Take-Up**

**Section 5 – Local e-Government Implementation Costs**

**Section 6 – Local e-Government Programme Efficiency Savings**

Please refer to [www.localgov.gov.uk](http://www.localgov.gov.uk) for further background information, including details of the priority outcomes guidance paper. Information on National Projects is available at [www.localgovnp.org](http://www.localgovnp.org). Further information about local e-government is also available from the IDEA's Knowledge website at [www.idea-knowledge.gov.uk](http://www.idea-knowledge.gov.uk).

In relation to Section 1 below, it is recognised that local authorities in two-tier areas may not have a statutory responsibility for service delivery in some of the areas listed. It is not the intention to ask district councils to deliver service provision outcomes for schools, or for county councils to deliver outcomes for benefits. However, a minimum requirement in terms of meeting a priority outcome for an authority with no direct statutory service responsibility is to offer appropriate (deep) hyperlinks to the relevant web pages of the local district or county councils that do provide the service. In practice, authorities in two-tier areas will need to work in partnership to establish

protocols covering the deep linking responsibilities within the ODPM's Priority Outcomes. This information should then be 'traffic-lighted' on the proforma accordingly.

Please add any explanatory or qualifying notes in the comment column, as appropriate.

Not all the elements in the proforma checklist in Section 2 below will necessarily be a part of your local e-government strategy, but you are expected to be aware of all of these elements and have taken a corporate position in relation to them. It is recognised that your IEG strategy will reflect local priorities and customer preferences, but you are asked specifically to provide accompanying commentary on any areas of the proforma checklist that remain "red" at the end of 2005/06.

**Local Context**

*You may enter free text here to summarise the impact and achievements of your local e-government programme to date and your service transformation plans beyond 2005/06, including the benefits that citizens will see as a result of e-government investment. In particular, you should cover the contribution of e-government to corporate efficiency gains, plans for increasing the take-up of e-services and promoting digital inclusion. It is suggested that you avoid the use of technical jargon in this section.*

West Berkshire Council, with business partners, has invested heavily in initiatives designed to improve the service it provides to local people. These have included the implementation of a customer contact centre and new technologies, supported by working practises, that provide better value for money to council tax payers.

The next stage for the council is to address underlying efficiencies by the use of technologies. This will include the use of electronic document and records management technologies to enable space saving, flexible working and more rapid compliance with access to information legislation. The council will also promote the use of self-service communications channels, again to release staff time for more direct service delivery. Self-service channels will increasingly become integrated with normal line of business processes to ensure that maximum return on investments made can be realised. It is expected that national take up campaigns will play a significant part in the delivery of council's plans.

<b>R5</b> Public access to online reports, minutes and agendas from past council meetings, including future meetings diary updated daily.	Green	Green	

<sup>4</sup> Owing to the long lead-in time, school admissions systems will need to be in place by March 2006 at the latest.

<sup>5</sup> i.e. young people who cannot live with their families and are in the care of Social Services (referred to by the DfES as Children in Public Care).

<sup>6</sup> Authorities using alternative service taxonomies (e.g. seamlessUK) should plan for migration to the LGCL by December 2005.

<b>R6</b> Providing every Councillor with the option to have an easy-to-manage set of public web pages (for community leadership purposes) that is either maintained for them, or that they can maintain themselves.	Green	Green	
<b>G3</b> Citizen participation and response to forthcoming consultations and decisions on matters of public interest (e-consultation), including facility for citizens to sign up for email and/or SMS text alerts on nominated topics.	Amber	Amber	
<b>G4</b> Establishment of multimedia resources on local policy priorities accessible via public website (e.g. video & audio files).	Amber	Green	
<b>E3</b> If already 'green' on R5, R6, G3 & G4 above, please comment on agreed baseline and targets for e-participation activities, including targets for citizen satisfaction in the comment column opposite. Otherwise, leave this row blank.			
<b>R7</b> Online public reporting/applications, procurement and tracking of environmental services, includes waste management and street scene (e.g. abandoned cars, graffiti removal, bulky waste removal, recycling).	Amber	Amber	Dependent on the corporate CRM project.
<b>R8</b> Online receipt and processing of planning and building control applications.	Green	Green	
<b>G5</b> Public access to corporate Geographic Information Systems (GIS) for map-based data presentation of property-related information.	Green	Green	
<b>G6</b> Sharing of Trading Standards data between councils for business planning and enforcement purposes.	Amber	Amber	The authority is in the process of implementing the eTSN product.
<b>G7</b> Use of technology to integrate planning, regulation and licensing functions (including Entertainment Licensing and Liquor Licensing) in order to improve policy and decision-making processes around the prevention of anti-social behaviour.	Green	Green	
<b>E4</b> If already 'green' on R7, R8, G5, G6 & G7 above, please comment on agreed baseline and targets for take-up of planning and regulatory services online, including targets for customer satisfaction and efficiency savings in the comment column opposite. Otherwise, leave this row blank.			
<b>R9</b> Appropriate online e-procurement solutions in place, including as a minimum paperless ordering, invoicing and payment.	Green	Green	

<b>G8</b> Establishment of a single business account (i.e. a cross-departmental 'account' run by the local authority whereby businesses are allocated a unique identifier that can be stored and managed via a corporate CRM account facility supporting face-to-face, website and contact centre transactions).	Amber	Amber	Dependent on CRM and Government Connect.
<b>G9</b> Regional co-operation on e-procurement between local councils.	Green	Green	Agresso provides part of the this solution, the remainder is dependent on the SECE portal.
If already 'green' on R9, G8 & G9 above, please comment on progress towards providing:  <b>E5</b> Access to virtual e-procurement 'marketplace';  <b>E6</b> Inclusion of Small and Medium Enterprises (SMEs) in e-procurement programme, in order to promote the advantages of e-procurement to local suppliers and retain economic development benefits within local community;  <b>E7</b> Agreed targets (please specify) for efficiency savings by December 2005, including the % of undisputed invoices paid in 30 days (BVPI 8);  in the comment column opposite. Otherwise, leave this row blank.			
<b>R10</b> Online facilities to be available to allow payments to the council in ways that engender public trust and confidence in local government electronic payment solutions (e.g. email receipting/proof of payment, supply of automatic transaction ID numbers).	Green	Green	
<b>R11</b> Delivery of 'added value' around online payment facilities, including ability to check Council Tax and Business Rate balances online or via touch tone telephone dialling.	Amber	Amber	Deliverable during 2006 as part of the Revenues and Benefits system replacement project.
<b>G10</b> Demonstration of efficiency savings and improved collection rates from implementation of e-payments.	Amber	Amber	It is assessed that compliance with this target is unlikely to make non-payers pay.
<b>G11</b> Registration for Council Tax and Business Rates e-billing for Direct Debit payers.	Amber	Amber	Deliverable during 2006 as part of the Revenues and Benefits system replacement project.
If already 'green' on R10, R11 G10 & G11 above, please comment on progress towards providing:  <b>E8</b> Provision of facilities for making credit or debit card payments via SMS text message for parking fines (mobile phone);			

<b>E9</b> Adoption of smart cards as standard for stored payments (e.g. replacing swipe cards);			
<b>E10</b> Agreed baseline and targets for reductions in unit costs of payment transactions; in the comment column opposite. Otherwise, leave this row blank.			
<b>R12</b> Online renewal and reservations of library books and catalogue search facilities.	Green	Green	
<b>R13</b> Online booking of sports and leisure facilities, including both direct and contracted-out operations.	Red	Red	Compliance with this target is linked to the renewal of the Leisure Services contract not due until 2007.
<b>G12</b> Integrated ICT infrastructure and support to ensure the consistent delivery of services across all access channels (e.g. web, telephone, face to face) based on e-enabled back offices and smart card interfaces for council library, sports and leisure services.	Red	Red	Compliance with this target is linked to the renewal of the Leisure Services contract not due until 2007.
<b>E11</b> If already 'green' on R12, R13 & G12 above, please comment on agreed baseline and targets for take-up of library, sports & leisure services online, including targets for customer satisfaction and efficiency savings in the comment column opposite. Otherwise, leave this row blank.			
<b>R14</b> Online facilities to be available to allow the public to inspect local public transport timetables and information via available providing organisation, including links to 'live' systems for interactive journey planning.	Green	Green	
<b>R15</b> Online public e-consultation facilities for new proposals on traffic management (e.g. controlled parking zones (CPZs), traffic calming schemes), including publication of consultation survey results.	Green	Green	
<b>G13</b> E-forms for "parking contravention mitigation" (i.e. appeal against the issue of a penalty charge notice), including email notification of form receipt and appeal procedures.	Green	Green	
<b>G14</b> GIS-based presentation of information on roadworks in the local area, including contact details and updated daily.	Green	Green	
<b>E12</b> If already 'green' on R14, R15, G13 & G14 above, please comment on agreed baseline and targets for customer satisfaction and efficiency savings in the column opposite. Otherwise, leave this row blank.			

<b>R16</b> E-enabled "one stop" resolution of Housing & Council Tax Benefit enquiries via telephone, contact centres, or via one stop shops using workflow tools and CRM software to provide information at all appropriate locations and enable electronic working from front to back office.	Amber	Amber	Deliverable during 2006 as part of the Revenues and Benefits system replacement project.
<b>R17</b> Online facilities to be available to allow citizens or their agents to check their eligibility for and calculate their entitlement to Housing & Council Tax Benefit and to download and print relevant claim forms.	Green	Green	
<b>G15</b> Mobile office service using technology to offer processing of Council Tax and Housing Benefit claims directly from citizens' homes.	Amber	Green	
<b>If already 'green' on R16, R17 &amp; G15 above, please comment on progress towards providing:</b>  <b>E13</b> Agreed baseline and targets for turnaround in processing of Council Tax and Housing Benefit claims (BVPI 78) and renewals. <b>E14</b> Pre-qualification of Council Tax and Housing Benefit claimants for other eligible entitlements (e.g. school uniform grants, free school meals), including pre-filling of relevant claim forms. <b>in the comment column opposite. Otherwise, leave this row blank.</b>			
<b>R18</b> Comprehensive and dedicated information about access to local care services available over the web and telephone contact centres.	Green	Green	
<b>R19</b> Remote web access or mediated access via telephone (including outside of standard working hours availability) for authorised officers to information about individual 'care packages', including payments, requests for service and review dates.	Amber	Amber	Comprehensive cover dependent on implementation of client system, scheduled to go live in April 06.
<b>G16</b> Systems to support joined-up working on children at risk across multiple agencies.	Amber	Green	
<b>G17</b> Joint assessments of the needs of vulnerable people (children and adults), using mobile technology to support workers in the field.	Amber	Amber	Comprehensive cover dependent on implementation of client system, scheduled to go live in April 06.
<b>E15</b> If already 'green' on R18, R19, G16 & G17 above, please comment on agreed baseline and targets for customer satisfaction, including improvement in numbers of users/carers who said that they got help quickly (BVPI 57) in the column opposite. Otherwise, leave this row blank.			
<b>R20</b> Email and Internet access provided for all Members and staff that establish a need for it.			

	Green	Green	
<b>R21</b> ICT support and documented policy for home/remote working (teleworking) for council members and staff.	Green	Green	
<b>R22</b> Access to home/remote working facilities to all council members and staff that satisfy the requirements set by the Council's published home/remote working policy.	Green	Green	
<b>G18</b> Establishment of e-skills training programme for council members and staff with recognised basic level of attainment (e.g. European Computer Driving Licence, British Computer Society Qualification "e-Citizen").	Amber	Amber	Training for members and staff is tailored to suit local needs. Although based on standard practice, the training is not designed for the attainment of qualifications.
<b>E16</b> If already 'green' on R20, R21, R22 & G18 above, please comment on agreed targets for baseline and efficiency savings arising from the introduction of new ways of working in the column opposite. Otherwise, leave this row blank.			
<b>R23</b> Self-service or mediated access to all council services outside standard working hours via the Internet or telephone contact centres (i.e. available for extended hours outside of 9am-5pm Monday to Friday).	Green	Green	
<b>R24</b> Implementation of a content management system (CMS) to facilitate devolved web content creation and website management.	Green	Green	
<b>G19</b> Adoption of ISO 15489 methodology for Electronic Document Records Management (ERDM) and identification of areas where current records management policies, procedures and systems need improvement to meet the requirements of Freedom of Information (FOI) and Data Protection legislation (see <a href="http://www.pro.gov.uk/about/foi/map-local.rtf">www.pro.gov.uk/about/foi/map-local.rtf</a> ).	Amber	Amber	Committed to the principles of ISO 15489, the council expects to procure an electronic document and records management system during 2006/07. Full roll out across the entire authority will take until 2007/08.
<b>G20</b> Conformance with level AA of W3C Web Accessibility Initiative (WAI) standards on website accessibility (see <a href="http://www.w3.org/WAI">www.w3.org/WAI</a> ).	Green	Green	The council's content management system complies with these standards although it expected that some information, due to its nature (eg GIS) will never be 100% compliant.
<b>G21</b> Compliance with Government Interoperability Framework (e-GIF), including the Government Metadata Standard (e-GMS) (see <a href="http://www.egifcompliance.org">www.egifcompliance.org</a> & <a href="http://www.govtalk.gov.uk">www.govtalk.gov.uk</a> ).	Amber	Amber	The council has an e-GIF strategy that complies with the requirement. Whenever possible, all new systems and internal interfaces will comply.

<b>E17</b> If already 'green' on R23, R24, G19, G20 & G21 above, please comment on agreed baseline and targets for efficiency savings based around improved accessibility of services and information in the column opposite. Otherwise, leave this row blank.			
<b>R25</b> Online publication of Internet service standards, including past performance and commitments on service availability.	Green	Green	
<b>R26</b> Monitoring of performance of corporate website, or regional web portal, between 2003/04 and 2005/06 in order to demonstrate rising and sustained use, as measured by industry standards including page impressions and unique users.	Green	Green	
<b>G22</b> Establishment of internal targets and measures for customer take-up of e-enabled access channels.	Amber	Amber	Aligned to the Gershon efficiency agenda.
<b>G23</b> Adoption of recognised guidelines for usability of website design (see <a href="http://www.laws-project.org.uk">www.laws-project.org.uk</a> ).	Amber	Green	
<b>E18</b> If already 'green' on R25, R26, G22 & G23 above, please comment on agreed baseline and take-up targets for migration of local authority business to e-access channels (e.g. web, telephone contact centres, Interactive Digital TV, mobile telephone) by 2005/06, including efficiency savings in the column opposite. Otherwise, leave this row blank.			
<b>R27</b> Systems in place to ensure effective and consistent customer relationship management across access channels and to provide a 'first time fix' for citizen and business enquiries, i.e. using a common database, which holds customer's records, to deliver services across different channels, and enabling joined-up and automated service delivery.	Amber	Amber	Although a system is being procured, it is expected that the full roll out to the entire authority will take some time to achieve.
<b>R28</b> All email and web form acknowledgements to include unique reference number allocated to allow tracking of enquiry and service response.	Amber	Amber	Dependent on CRM (see R27).
<b>R29</b> 100% of email enquiries from the public responded to within one working day, with documented corporate performance standards for both email acknowledgements and service replies	Amber	Amber	Dependent on CRM (see R27).
<b>G24</b> Integration of customer relationship management systems with back office activity through use of enabling technology such as Workflow to create complete automation of business process management.	Amber	Amber	Dependent on CRM (see R27).

<p><b>G25</b> Facilities to support the single notification of a change of address, i.e. a citizen should only have to tell the council they have moved on one occasion and the council should then be able to update all records relating to that person to include the new address.</p>	Amber	Amber	Dependent on CRM (see R27).
<p><b>E19</b> If already 'green' on R27, R28, R29, G24 &amp; G25 above, please comment on agreed baseline and improvement targets for the percentage of public enquiries about council services resolved at first point of contact and efficiency savings resulting from investment in customer relationship management and workflow technology in the column opposite. Otherwise, leave this row blank.</p>			

## Section 2 – Change Management (self-assessment)

*Authorities are asked to provide information on advisory good practice outcomes relating to the internal organisation and management practices of the council that are required to help deliver the people, systems and service management changes necessary for e-government. Information supplied here will be used to inform national policy, but does not fall within the remit of e-government targets.*

### Section 3 – BVPI 157

Councils are asked to complete the following table using the definition of Best Value Performance Indicator (BVPI) 157 for Electronic Service Delivery (Corporate). You are required to validate your local list of interactions against Version 2.01<sup>9</sup> of the Local Government Services List (LGSL) developed by local authority members of the esd-toolkit ([www.esd-toolkit.org](http://www.esd-toolkit.org)). All totals and percentages shown should be cumulative.

<sup>9</sup> This updates Version 2.0 to include National Park Authority services and represents the 'core' list which will remain unchanged until April 2006 and will provide a common baseline for calculating BVPI 157 and reporting figures in IEG returns.

<sup>10</sup> Authorities should base their annual BVPI 157 actuals on the position at the 31<sup>st</sup> March in each financial year (i.e. year end), including the end of programme position for 2005/06.

## Section 4 – Access Channel Take-Up

In order to demonstrate public take-up of the main e-access channels that you are investing in, you are asked to complete the table below detailing actual and forecast figures for numbers of e-enabled payment transactions and change of address notifications. Planning authorities should also complete the Local Service Website line for planning applications. It is important that e-access channel investment and rollout also facilitates accompanying improvements in the corporate management capability required to monitor and collect such statistics. Industry definitions of page impressions<sup>11</sup> and unique users<sup>12</sup> are given in the footnotes below.

<sup>11</sup> **Unique User** (industry audit definition): According to IFABC Global Web Standards ([www.ifabc.org](http://www.ifabc.org)) a Unique User is an "IP address plus a further identifier. Sites may use User Agent, Cookie and/or Registration ID." Note that where users are allocated IP addresses dynamically (for example by dial-up Internet Service Providers), this definition may overstate or understate the real number of individual Users concerned. A Unique User is at a minimum an IP address + the Browser ID with a unique address entering a website by any page and is counted once for the given period (the minimum audit period is one calendar month). The number of Unique Users is an indicator of a website's audience or reach.

<sup>12</sup> **Page Impression** (industry audit definition): According to IFABC Global Web Standards ([www.ifabc.org](http://www.ifabc.org)) a Page Impression is a "file or a combination of files sent to a user as a result of that user's request being received by the server." In effect, one request by a valid User should result in one Page Impression being counted. In most cases, a single request from a User causes the server to send several files to satisfy the request. For example, the server may send a .html file followed by several associated graphic images and audio files. A single request from a user may also cause the server to send additional .html files to build a frameset. The site must ensure that all additional, non-requested files are filtered out and excluded when counting the claimed number of Page Impressions.

Councils are asked to provide a summary of current and forecast expenditure on implementing electronic government up to 2007/08. This should include the standard elements in the table below and brief commentary on the use of IEG money. For 2006/7 onwards, please include best estimates of revenue and capital expenditure even though the council may not yet have officially approved the budgets. (Please note that implementing e-government expenditure refers to investment designed to e-enable local services and to transform their accessibility, quality and cost-effectiveness in line with the 2005 target. Cyclical spend related to the maintenance of the existing ICT infrastructure should not be included):

## Section 6 – Local e-Government Programme Efficiency Gains<sup>14</sup>

The calculation of efficiency gains from local e-government has been designed to align with the approach to measuring achievement against the efficiency gains target set out in the January 2005 Efficiency Technical Note (ETN) for Local Government<sup>15</sup>. Links to listed websites in the table Notes also offer a key source of support in calculating figures.
