Individual Decision

The attached report will be taken as an Individual Portfolio Member Decision on:

24 April 2008

Ref:	Title	Portfolio Member	Page No.
ID1533	School Safety Project Programme	Councillor Keith Chopping	3

Individual Decision

Title of Report:	School Sa	fety Project Pro	ogramm	ne
Report to be considered by:	Councillor Keit	h Chopping	on:	24 April 2008
Forward Plan Ref:	ID1533			
Purpose of Report	t: -	To seek approval from Highways of the Sche		utive Member for Planning and Project Programme.
Recommended Ac	ction:			Planning and Highways resolves hown in Appendix A of this
Reason for decision	to be taken:			ol Safety Project Programme so er Council or developer funding
List of other options	considered:	None.		
Key background doc	umentation:	Reports EX0263 a October 2002	nd EX0266	presented to Executive on 24
		Portfolio Member:	Koith Cha	nning
		Tel. No.:	Keith Cho 0118 983	
		E-mail Address:		2057 g@westberks.gov.uk

Contact Officer Det	ails
Name:	Andrew Garratt
Job Title:	Principal Traffic & Road Safety Engineer
Tel. No.:	01635 519491
E-mail Address:	agarratt@westberks.gov.uk

Supporting Information

1 Background

- 1.1 West Berkshire is predominantly rural in nature with many schools having very wide catchments. As a result many children receive free transport to and from school.
- 1.2 Despite this, traffic levels nationally have increased significantly over the last ten years raising concerns amongst parents over road safety. Parents become anxious about letting their children walk or cycle to schools unaccompanied and taking them to school by car is perceived as being the safest and most convenient means of transport. Consequently traffic levels increase due to additional school-related trips contributing to a deterioration of road safety for pedestrians and cyclists.
- 1.3 The Government produced the document 'Tomorrow's Roads Safer for Everyone', outlining the national strategy for road safety and casualty reduction through to 2010. In this strategy one of the targets is to reduce child casualties by 50% by 2010, which is reflected in the Council's Local Transport Plan and the Road Safety Strategy. In seeking to meet these targets the Road Safety Strategy identifies three areas to improve road safety, namely Education, Enforcement and Engineering.
- 1.4 Reports approved by the Executive during October 2002 listed schools in a priority order for implementation from the Safer Routes to School Programme and Safety Outside Schools Programme. These programmes are designed to provide the necessary engineering features to slow traffic, assist crossing of roads, improve the local infrastructure generally, especially for vulnerable road users such as cyclists or pedestrians, and provide the necessary features to relieve the actual or perceived road safety risks.
- 1.5 Whilst the traffic and road safety team have been working from these lists it is considered that the lists need to be reviewed to reflect the change in pupil numbers, recorded injury accidents and highway conditions in the vicinity of schools.

2 Prioritisation

- 2.1 To improve efficiency the Safer Routes to School and Safety Outside School programmes have been combined to create the School Safety Project. In order to develop an effective programme of schemes within the project it is important to ensure that works are targeted where they are effective, achieve value for money and achieve Council/Government targets.
- 2.2 The School Safety Project Programme has prioritised schools so that those with the highest road safety risks are treated first. The programme considers personal injury accidents that have occurred up to 100 metres from the school. A technique using 'weighting' factors has been included depending on the severity of the accident and whether the accident involved a child. Further considerations include the speed limit outside a school and the speed of traffic using that road, the number of pupils at a school (to ensure that the maximum number of pupils could benefit from a scheme), whether the school has a 'walking bus' or other walking initiatives in operation and whether the school has implemented a School Travel Plan.
- 2.3 Given that a Safer Routes to School Scheme can be expensive to introduce it is considered that the School Safety Project should focus on the implementation of school warning signs with flashing lights outside all schools. This would provide maximum benefit to all schools and once completed Safer Routes to School Schemes can continue to be implemented to improve safety for pupils on their way to and from a school.

2.4 The programme in Appendix A identifies which schools have had schemes introduced up to and including 2008/09. The remaining schemes outside this period are listed in priority order. Data relating to the prioritisation of the schools within the programme is constantly being monitored and refined. It is therefore possible that the priority order may change from time to time, however any amendments to the programme will not be implemented without approval of the Executive Member for Planning and Highways.

3 Conclusion

- 3.1 The programme of schemes within the School Safety Project has been prioritised on the basis that schools where there is an existing accident record or a higher risk of an accident are higher up the list than those where the risks are lower.
- 3.2 Based on the current capital programme it is estimated that in 2008/09 Francis Baily (which is a scheme carried over from 2007/8) will have engineering measures introduced on the routes to the school and a further twelve schools will benefit from the installation of 'children crossing' warning signs with flashing lights. However, during 2009/10 and in each subsequent year it is estimated that seventeen schools will benefit from the installation of 'children crossing' warning signs.
- 3.3 It should be noted that opportunities will also be sought to accelerate the programme using Section 106 funding. Where the schools are in close proximity to one another they will be treated as one scheme. At current funding levels it is anticipated that every school will have warning signs in place within the next four years. Once this programme has been complete, resources will be allocated to consideration of other School Safety Projects including Safer Routes to School.

4 Recommendation

4.1 That the Executive Member for Planning and Highways approves the School Safety Programme as shown in Appendix A.

Appendices

Appendix A – School Safety Programme. Appendix B – Ward Member Comments

Implications

Policy:	None arising from this report.
Financial:	None arising from this report because the School Safety Programme is funded from the Councils Capital Programme or S106 contributions if available.
Personnel:	None arising from this report.
Legal:	None arising from this report.
Environmental:	None arising from this report.
Equalities:	None arising from this report.
Partnering:	None arising from this report.

West Berkshire Council

Consultation Responses

Members:	
Leader of Council:	To date no response received from Councillor Graham Jones. However any comments will be verbally reported at the Individual Decision meeting
OSC Chairman:	To date no response received from Councillor Brian Bedwell. However any comments will be verbally reported at the Individual Decision meeting
P&L Committee Chairman (where appropriate):	N/A
Ward Members:	All ward members were consulted on the draft report on 25 th March 2008. The responses together with officer comments are detailed in Appendix B.
Opposition Spokesperson:	Councillor Keith Woodhams fully supports the programme.
Advisory Members:	N/A
Local Stakeholders:	N/A
Officers Consulted:	John Ashworth, Mark Edwards and Mark Cole.
Trade Union:	N/A

Appendix B

Ward Member Comments

All ward members were consulted on the draft report on 25th March 2008. The following responses were received.

Member	Comments	Officer Response
Billy Drummond	Fully supports this scheme that makes our schools in West Berks that little bit safer.	Comments noted.
Marcus Franks	My only comment is Robert Sandilands is down as complete. There are no sign of the flashing wig wag signs that were on the plans.	When members were consulted the scheme was substantially complete. However the scheme was completed on 31 March 2008. The introduction of the School warning signs with flashing lights is programmed for this financial year.
Anthony Stansfeld	Kintbury Primary School seems notable by its absence, unless I have missed it.	Kintbury Primary School was listed at number 99 in the draft report and programmed for 2017/18. However the Primary School is listed at 96 in the revised list and programmed for school warning signs in 2012/13.
Paul Bryant	I am happy with the two documents as far as they go.	Comments noted.
