

Proposed Amendments to Application

Firstly, I would like to express my infinite gratitude for taking the time to listen to me during our phone conversation.

As I mentioned during our conversation, our intention is not to open a nightclub or bar, nor to create a venue for those who want to have fun elsewhere and end their evenings by eating kebab or doner-style meals.

I would like to state in writing that we intend to open a small and decent fine dining restaurant & takeaway with a maximum capacity of up to 20 people, where rare examples of Turkish cuisine can be experienced with a background music.

Although our priority during the envisaged service hours is the dinner time, we have plans to offer lunch and, perhaps in the future, the famous Turkish breakfast depending on demand.

I reside very close to the location where I applied for the license, and I fully understand the concerns of the surrounding residents who object to the time intervals specified in my application.

Our goal/vision is not to disturb anyone's comfort or make their lives more difficult. On the contrary, we aim to provide services and assistance in collaboration with all authorized institutions, including your office, by complying with the laws and regulations of the authorized institutions, and without jeopardizing public health, safety, and comfort.

Therefore, the time intervals mentioned below seem suitable for us as well, and if deemed appropriate by you, we would like to update the opening hours from:

11:00-00:00 to 8:00-00:00 (without making another application/ update for our breakfast service option).

In light of all this;

Can you please confirm you wish to change your application as per above? Yes, I consent to the changes and approve their implementation with your help.

Can you please confirm that you wish for me to attempt mediation on your behalf to the objectors? Yes, we consent for you to attend mediation on our behalf.
