Premises License variation application

To whom it may concern

Re watermill theatre Bagnor Newbury extension to license

We live directly opposite /behind the above theatre. Whilst we are very supportive and feel it a great privilege to live so close to this wonderful institution, we feel that we have to challenge this application.

On occasions there have been weddings and outdoor events/shows which have caused us a disturbance but we have been accepting and understanding. The music from out door performances can be heard inside our house and most noticeable in our back garden

We would be happy to accept occasion use of this license however once granted we would not be able to appeal should they decided to use the premises seven days a week for outdoor music or events running right up to midnight. This new license if granted feels unnecessarily extensive and we would like to register our opposition to it

Kindest regards Simon and Emma Frayne
