Subject: Water mill theatre.

Dear Sir or Madam,

As a village we have always embraced the water mill theatre and supported them even though at times it makes our village very congested, especially at Christmas with all the coaches.

Recently they have started having more outside performances which are becoming very loud with both the music and the audience participation becoming unbearable for the residents of Bagnor. Not only the noise from the performances which have changed recently but also the the people staying for drinks and chatting in the car park until late. We have people who work and leave early in the mornings who are having their lives disrupted and would be more so with the updated licence. Please consider the people who live with this daily.

This email is the opinion of both my husband and myself.

Yours sincerely

Steve and Peggy-Ann Mills

Spring Cottage, 6, Bagnor.
