Subject: Objection to alcohol license

To whom this may concern,

Hello, I am writing an email today to ask you to review and reject the application of 'Coriander Club restaurant' based in Calcot royal avenue. The venue is too small, too close to housing and produces a lot of safety concerns within the local area.

The venue for where they want to serve alcohol is tiny therefore people will be drinking outside of the property and are more than likely to cause disturbances to properties nearby and around the area as old places like 'silsila', 'pasha' and 'murdochs' had made in the past before shutting down

There are many residences close by to these properties who either work or have young children that go to school. Allowing this establishment to have an alcohol license will promote a large amount of disturbance to the lives of the people around the area, as there will be more trouble in the area and high chances of complaints which might be overlooked and not noticed by the establishment that could cause violence and bad atmosphere to the area and establishments around it.

The safety concerns to allowing the establishment to have an alcohol license is also very concerning as there is very little parking in and around the area. There has already been incidents of car crashes and blockages from the parking arrangements that are already placed. Not to mention the likelihood of members and customers of the association drinking and driving is very likely to spike. The area is full of children that ride their bikes, go for walks and play with friends near the establishment. The last thing we want as a community is to allow something into our community that can cause danger to the children.

In conclusion and in my opinion along with other members of the community I have taken the time out of my day to speak to. We think it will be a very big mistake to hand this establishment with a license as it will more than likely be less beneficial to the society. I highly recommend you guys to reconsider and take a deeper look into this before making any big changes.

Sincerely
Harsh patel
