

Appendix E

Community Infrastructure Levy Bids

In previous years the Council had invited local community groups and town and parish councils to bid for funding for schemes to provide infrastructure to local communities. 2023/24 was the final year of a three-year scheme which offered access to such Community Infrastructure Levy (CIL) funding.

£500k of funding has provisionally been made available for CIL bid applications in financial year 2024/25. The bidding process and criteria will be published on the Council's internet page.
