Budget Proposals 2024/25: Reduce opening hours at Household Waste Recycling Centres (HWRCs)		Winstanley	Service Director: Jon Winstanley Author: Daniel Warne 8 February Version 1 (S Commission		
Proposal:	 To reduce the weekday (Monday to Friday) opening times, currently 9am to 6pm, of both HWRCs by two hours to 11am to 6pm To remove the late-night opening hours (6pm to 8pm - Thursdays only) during the summer months at Newtown Road 				
Total budget 2023/24:	Initial proposed saving 2024/25:	£59,000	Recommende saving 2024/2	~~~,~~	
No. of responses:					
Key issues raised:	The majority of respondents strongly agreed or agreed with the proposals. There was some debate over what the best use of the opening hours would be, but most respondents seemed to agree that they could make the proposals work for them. Suggestions included opening from 9am - 4pm or 10am - 5pm instead. Concerns were

reducing the impact on service users:	Advertise and promote the changes.	We agree that this is an important component of rechange and will look to do so if the proposal is passadvantage of the booking system is that it will only appointments when the site is open, thus reducing of people turning up to use the site when it is close		ssed and implemented. An y allow customers to book g and near removing any risk	
	Open another site.	Unfortunately, this suggestion is not financially feasible. The investment and ongoing cost required to build and operate another recycling centre will outweigh a large majority of all of the proposals put forward for consultation.			
	Have a priority booking system.	We do not believe that this suggestion will reduce the impact of this change as there is capacity within the amount of appointment already available within the new proposed opening hours. A priority system may also negatively impact residents who do not qualify or afford.			
	Remove the booking system	leading into New where tailbacks reduced the time need to queue vocustomer service abuse toward si	mentation of the booking system in woury have disappeared over week of up to 800m where a frequent or it takes for residents to enter and while on site. It has also allowed us with complaints from residents contended to the operatives. We have also seen aking fewer visits but bringing more	kends and busy periods ccurrence. It has also I exit site, as they no longer to maintain a good level of onsiderably reducing as has residents make better use of

		has a positive effect on vehicle movements and the environment. As such, we are not planning to remove the booking system.			
	Keep the late-night opening.	We have monitored utilisation of the late-night Thursday opening, which has shown that only 60% of appointments were booked over the past 12 months, we have also received a positive response to the consultation proposing to remove this. This was an initial option discussed with before this proposal was put forward. It was decided that this would have a bigger impact on residents and site staff, without generating a significant increase in savings. This was an initial option discussed with before this proposal was put forward. We felt that 11am - 6pm was the better option as it still allows people who word during the daytime to visit in the evening, whereas opening 9am - 4pm or 10ar - 5pm removes that opportunity. Data from our booking system show that appointments later in the day are better utilised when compared to those in the morning.			ed over the past 12 months,
