218	23/02/2023	Healthwatch Report - Asylum Seekers	Officers to look at the report's recommendations in the context of their statutory functions to see what improvements could be made.	Sean Murphy / Nick Caprara	WBC		Awaiting update.
241	03/10/2023	Right Care, Right Person	Confirm if data was available on the percentage of incidents where there was harm to the individual after a welfare check had been carried out.	Supt Helen Kenny	TVP	Complete	There is current data available that shows the trend of 'concern for welfare/safety' calls that are made to Police, those calls that are then recorded as specific incidents and those incidents where it is deemed necessary for police to attend. Of the incidents that police do attend, data is available to show whether a crime is recorded or whether a referral to a partner agency is made (owing to harm either caused or if harm is likely to occur). The local county based (Berks, Bucks and Oxon) operational groups will review data and bring together good practise and concerns to ensure that all are involved to ensure that the programme is embedded across all partners. These groups feed in to the strategic management group which is jointly chaired by NHS England and TVP.
