T250	<p>Wooden chair 'MS' marked underneath. Modes states "Chair. School use. Marked 'M5'." Possibly Shaw House related but unsure. Active woodworm. Covered in Guano.</p> <p>HER link to Shaw House: https://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MWB5023&resourceID=1030</p>		<p>Dispose:</p> <p>Offer to Shaw House in the first instance (would need to clean and woodworm treat) open up to other Museums.</p>	<p>Health and safety risk (guano)</p> <p>Objects posing a conservation hazard to other parts of the collection</p> <p>To provide better care or access</p>	

1976.43	<p>Cart wheel. No further information is recorded in catalogue. Accession Register states donor's address is Speen, so came from a local person, but use and origin is unknown. Object History Files refer to a letter regarding donor's plans to make a model landau. Active woodworm. Large and heavy so would require a courier to move to the Museum for any exhibition.</p>		<p>Dispose:</p> <p>Offer to Museum of English Rural life in the first instance, then open up to other Museums.</p>	<p>Extensive deterioration in condition</p> <p>Objects posing a conservation hazard to other parts of the collection</p> <p>To provide better care or access</p>

<p>1975.5</p>	<p>Jail door (The Museum has three in total, we are looking to dispose of the one in poorest condition). Probably salvaged when Old Guildhall was demolished in 1828 (? From the Bridewell). The two were stored at Camp Hopson for years. It is similar to the door currently in Gallery 2 at museum which came from the prison at the Old Guildhall. They are in very poor condition. One was stolen in 1996 and then found and given back to the Museum. One of the two doors has metal spikes coming out of the door, which causes a hazard in store. Large and heavy so would require a courier to move to the Museum for any exhibition.</p> <p>HER link to the Old Guildhall: https://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MWB15898&resourceID=1030</p>		<p>Dispose of the one in poorest condition, leaving two in the Museum collection:</p> <p>Offer to Weald and Downland Living Museum in the first instance, then open up to other Museums.</p>	<p>Health and safety risk (metal protrusions)</p> <p>Extensive deterioration in condition</p> <p>Objects posing a conservation hazard to other parts of the collection</p> <p>To provide better care or access</p>

<p>T232</p>	<p>White painted wooden door with name plate 'Dr B.B Letham'. This object has been assigned a Temporary Number, which means that the object was found in store with no associated existing number / tag / documentation connected with it.</p> <p>With some online research we believe that this item might relate to a Dr Bruce Baird Letham, part of Dr B. B. Letham & Partners, Eastfield House Surgery, 6 St Johns Road, Newbury, RG14 7LW. Poor condition. The name plate is what makes the door significant. Large and heavy so would require a courier to move to the Museum for any exhibition.</p>		<p>Retain name plate but dispose of door.</p>	<p>Health and safety risk (possible lead paint)</p> <p>Extensive deterioration in condition</p> <p>To provide better care or access</p>

<p>T234</p>	<p>Catalogue states that these are "Timbers which appear to be the rail and uprights to the old staircases on the external Granary balcony. (Not certain this is there use.)".</p> <p>4x long timbers and 2x decorative finials. However, the pendants look similar to those on the Cloth Hall arches.</p> <p>This object has been assigned a Temporary Number, which means that the object was found in store with no associated existing number / tag / documentation connected with it.</p> <p>Active woodworm. Lack of clear provenance makes it difficult to use. Large and heavy so would require a courier to move to the Museum for any exhibition.</p> <p>HER link to the Granary and Cloth Hall: https://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MWB3479&resourceID=1030</p> <p>https://www.heritagegateway.org.uk/Gateway/Results_Single.aspx?uid=MWB3480&resourceID=1030</p>		<p>Retain pendants as important decorative feature but dispose of larger timbers.</p>	<p>Objects posing a conservation hazard to other parts of the collection</p> <p>To provide better care or access</p>

<p>T2811 / T2810 –</p> <p>Likely 1979.68</p>	<p>Dado rail, multiple lengths/widths and 20x planks of wood. This object was assigned a Temporary Number, which means that the object was found in store with no associated existing number / tag / documentation connected with it. Contacted a previous Curator and they believed these belong to a medieval ceiling that was from 1 Market Street, Newbury. The Museum also had smaller decorative features in boxes from this same ceiling. Large and heavy so would require a courier to move to the Museum for any exhibition.</p>		<p>Retain a sample of plank and a sample of dado to keep with the decorative elements and then dispose of the rest.</p>	<p>Health and safety risk (unknown treatments)</p> <p>Objects posing a conservation hazard to other parts of the collection</p> <p>To provide better care or access</p>

1996.59.1

Electric cooker. Made by Revo. With loose grill pan. The cooker was bought by a hire purchase arrangement from the Electricity Board in 1939. It has always been used by the donor who comes from Reading. Not West Berkshire related. It is very heavy so would require a courier to move to the Museum for any exhibition.
