Purpose of General Reserves

The purpose of General Reserves are to act as a fund to be used in emergencies due to an outturn over spend and to protect council taxpayers from any steep rises in future Council Tax if the Council over spends against its budget.

The Council s151 officer (the Head of Finance) recommends that the General Reserve totals, as a minimum, 5% of the Council's net revenue expenditure. As at the 1.4.2015, this would be a minimum reserve of £6.2m.

Within the expected General Reserves of £6.5m as at 31st March 2015, assuming an overspend of £346k as per Quarter Three Financial Performance Report, the Council has a number of risks as follows:

- Economy measures and service reductions always contain some degree of uncertainty as to whether their full effects will be achieved.
- The impact of significant increases in demand to Council budget areas, specifically in Adult Social Care and Children's Social care; it should be noted that during 2012/13 Adult Social created their own risk fund for known items on the risk register that is maintained; these do not address significant spikes in demand
- The delivery of all savings targets
- Unforeseen events such as the flooding during January 2014
- Risks in relation to litigation.
- Risk of changes from specific grants to the non ring fenced government grants.
- Risks of grants being introduced or removed mid year, requiring authority contributions.
- The need to retain a general contingency to provide for unforeseen circumstances.
- The need to retain reserves for general day to day cash flow needs and avoid unnecessary temporary borrowing
- Risk of reduced income due to deferred income and social care clients' property decreasing in value

If the risks above occur, then this will deplete the general reserves further.

Other reserves

The Council has a variety of other reserves which are earmarked for specific purposes. The significant items are highlighted below

Adult Social Care Risk Fund

Anticipated to be close to £600k by the end of the 2014/15 financial year. This reserve was created from one-off savings in Adult Social Care to meet known risks within the service. A separate risk register is held for the service. As with all reserves, these are one-off solutions and any on-going pressures will need to be adjusted via the CEL process.

Restructuring Provision

The Council expects to use some of this provision in the specific earmarked reserves to fund the cost of the savings proposals for the 2015/16 budget proposals, which are anticipated to be £320k.

It is anticipated that this reserve will mitigate, as much as possible, the impact of any savings related costs to the Council over the short term and so protect the Council's levels of general reserves to at least the minimum amount recommended by the s151 officer.

Any balance in this reserve at the end of the financial year will be rolled forward to fund any future restructuring costs to the Council.

Waste Management Reserve

A fund set up to help to meet the revenue and capital costs associated with the Council's PFI arrangement for the provision of waste collection and disposal services.

Long term commitments

Funding specifically set aside for capital financing purposes; either funding for future capital schemes or financing costs for future principal payments on maturity loans. These vary according to the progress of capital schemes and the utilisation of s106 monies.
