Implications

Policy:	The Council currently has adoptive provisions and byelaws for the registration of tattooists, ear piercers, electrolysis and acupunctureists
Financial:	Amendments via section 120 Schedule 6 could mean a small increase of income for the Council. However, the level of income will be dependent upon the number of new businesses being registered, which is unquantifiable. If there are any financial implications contained within this report this section must be signed off by a West Berkshire Group Accountant. Please note that the report cannot be accepted by Policy and Communication unless this action has been undertaken.
Personnel:	None
Legal/Procurement:	Inclusion of Section 120 Schedule 6 would bring operators of cosmetic pircing and skin colouring practices/businesses under the legal control of the Council
Property:	None
Risk Management:	None

Executive Summary

1. Introduction

- 1.1 The council resolved to adopt the provisions of the Local Government (Miscellaneous Provisions) Act 1982 Sections 14 and 15 in relation to Tattooing, ear piercing, electrolysis and acupuncture in 1984.
- 1.2 This report advises Members that the Local Government (Miscellaneous Provisions) Act 1982 has been amended by the Local Government Act 2003 Section 120 Schedule 6.
- 1.3 This amendment enables local authorities to adopt byelaws which are intended to increase health protection and reduce the risk of transmission of blood-borne virus (BBV) infections such as HIV, Hepatitis B and C and other infections in relation to Cosmetic Piercing and Skin-Colouring Businesses as well as for tattooing, ear piercing, electrolysis and acupuncture.
- 1.4 Section 120 introduces new terminology for simplicity and clarity as follows:

ear piercing and cosmetic body piercing are encompassed in the single term “cosmetic piercing”, and

micro-pigmentation, semi-permanent make-up and temporary tattooing are covered by the umbrella term “Semi-permanent skin-colouring”.
- 1.5 Semi-permanent skin colouring is defined as “the insertion of semi-permanent colouring into a person’s skin”.
- 1.6 It is not known how many premises in West Berkshire are presently offering cosmetic piercing and semi-permanent skin colouring services. The adoption of the byelaws would require all local business involved in the practices outlined above to register and comply with standards intended to protect public health.

2. Proposals

- 2.1 To adopt the model byelaws for Cosmetic Piercing and Semi-Permanent Skin-Colouring shown as Appendix A and B.

3. Conclusion

- 3.1 The benefits of adoption of the Model Byelaws are consistent with the Council Plan Theme

Executive Report

1. Introduction

- 1.1 Cosmetic piercing (piercing of the body including the ear) and semi-permanent skin colouring (including micropigmentation, semi permanent make-up and temporary tattooing) has grown in popularity over the years. These processes like tattooing and ear piercing carry a potential risk of BBV transmission if infection control procedures are not observed. (ie. the use of sterile equipment for each client in hygienic premises).
- 1.2 Until the change in legislation local authorities in England, outside London and in Wales did not have powers to make byelaws controlling the cleanliness and hygiene of premises used for these practices, other than those used in conjunction with the business of tattooing, ear piercing, electrolysis and acupuncture, for which the Council introduced Byelaws in 1984.
- 1.3 Within the West Berkshire District there are 28 premises currently registered for the conducting of tattooing, ear piercing, electrolysis and acupuncture. Present byelaws control standards of those activities, as stated.
- 1.4 Officers are aware that, mainly tattooists have been engaged in the unregulated practice of body piercing and may be undertaking other practices which Section 120 Schedule 6 seeks to control.
- 1.5 It is not known exactly how many premises in West Berkshire are presently offering those services which will be covered by the introduction of Section 120 Schedule 6 proposals. However, the introduction of Byelaws will enable officers to ensure that current, best hygiene practices are being observed in all premises covered by the Act.

2. Adoption Procedure

- 2.1 Where a Council has already adopted the 1982 Act in relation to tattooing, ear-piercing, electrolysis and acupuncture it can move straight to the introduction of byelaws.
- 2.2 Should members agree to the adoption of the model byelaws shown as Appendix A and B, the required application to the Secretary of State to seek confirmation of the byelaws would be made under Section 236 of the Local Government Act 1972.

3. Transitional Provisions

3.1 Section 120 Schedule 6 of the 2003 Act provides for transition from the current legislation to the amended legislation and to avoid disruption to local authorities and businesses by providing that:

- persons and premises already registered for activities covered by section 15 of the current legislation (i.e. tattooing, ear piercing, electrolysis and acupuncture) are unaffected
- where a local authority has already resolved that sections 14 & 15 of the 1982 Act should be brought into force in their area for tattooing, ear piercing, electrolysis and acupuncture, then the local authority will be automatically enabled to apply the registration and byelaws regime to cosmetic piercing and semi-permanent skin colouring.
- a person and premises already registered for ear piercing shall be counted as registered for cosmetic piercing until that person subsequently provides another form of cosmetic piercing, or those premises are subsequently used to provide another form of cosmetic piercing (i.e. cosmetic piercing of a part or parts of the body other than the ear), when a new registration would be required.

Fees

The Council already has a fee structure in place, it would therefore be appropriate to charge a registration fee in line with the existing charges for tattooing, etc.
