Better Care Fund 2019/20 Template

1. Guidance

Overview

Note on entering information into this template

Throughout the template, cells which are open for input have a yellow background and those that are pre-populated have a grey background, as below:

Data needs inputting in the cell

Pre-populated cells

Note on viewing the sheets optimally

For a more optimal view each of the sheets and in particular the drop down lists clearly on screen, please change the zoom level between 90% - 100%. Most drop downs are also available to view as lists within the relevant sheet or in the

The details of each sheet within the template are outlined below.

Checklist (click to go to Checklist, included in the Cover sheet)

1. This section helps identify the data fields that have not been completed. All fields that appear as incomplete should be complete before sending to the Better Care Support Team.
2. It is sectioned out by sheet name and contains the description of the information required, cell reference for the question and the 'checker' column which updates automatically as questions within each sheet are completed.
3. The checker column will appear 'Red' and contain the word 'No' if the information has not been completed. Clicking on the corresponding 'Cell Reference' column will link to the incomplete cell for completion. Once completed the checker column will change to 'Green' and contain the word 'Yes'
4. The 'sheet completed' cell will update when all 'checker' values for the sheet are green containing the word 'Yes'.
5. Once the checker column contains all cells marked 'Yes' the 'Incomplete Template' cell (below the title) will change to
6. Please ensure that all boxes on the checklist are green before submission.

2. Cover (click to go to sheet)

1. The cover sheet provides essential information on the area for which the template is being completed, contacts and
2. Question completion tracks the number of questions that have been completed; when all the questions in each section of the template have been completed the cell will turn green. Only when all cells are green should the template be sent to england.bettercaresupport@nhs.net
3. Please note that in line with fair processing of personal data we collect email addresses to communicate with key individuals from the local areas for various purposes relating to the delivery of the BCF plans including plan development, assurance, approval and provision of support.
We remove these addresses from the supplied templates when they are collated and delete them when they are no longer needed.

4. Strategic Narrative (click to go to sheet)

This section of the template should set out the agreed approach locally to integration of health & social care. The narratives should focus on updating existing plans, and changes since integration plans were set out until 2020 rather than reiterating them and can be short. Word limits have been applied to each section and these are indicated on the

1. Approach to integrating care around the person. This should set out your approach to integrating health and social care around the people, particularly those with long term health and care needs. This should highlight developments
2 i. Approach to integrating services at HWB level (including any arrangements at neighbourhood level where relevant). This should set out the agreed approach and services that will be commissioned through the BCF. Where schemes are new or approaches locally have changed, you should set out a short rationale.
2 ii. DFG and wider services. This should describe your approach to integration and joint commissioning/delivery with wider services. In all cases this should include housing, and a short narrative on use of the DFG to support people with care needs to remain independent through adaptations or other capital expenditure on their homes. This should include
3. How your BCF plan and other local plans align with the wider system and support integrated approaches. Examples may include the read across to the STP (Sustainability Transformation Partnerships) or ICS (Integrated Care Systems) plan(s) for your area and any other relevant strategies.

You can attach (in the e-mail) visuals and illustrations to aid understanding if this will assist assurers in understanding

5. Income (click to go to sheet)

1. This sheet should be used to specify all funding contributions to the Health and Wellbeing Board's Better Care Fund (BCF) plan and pooled budget for 2019/20. On selected the HWB from the Cover page, this sheet will be pre-populated with the minimum CCG contributions to the BCF, DFG (Disabled Facilities Grant), iBCF (improved Better Care Fund) and Winter Pressures allocations to be pooled within the BCF. These cannot be edited.
2. Please select whether any additional contributions to the BCF pool are being made from Local Authorities or the CCGs and as applicable enter the amounts in the fields highlighted in 'yellow'. These will appear as funding sources when planning expenditure. The fields for Additional contributions can be utilised to include any relevant carry-overs from the
3. Please use the comment boxes alongside to add any specific detail around this additional contribution including any relevant carry-overs assigned from previous years. All allocations are rounded to the nearest pound.
4. For any questions regarding the BCF funding allocations, please contact England.bettercaresupport@nhs.net

6. Expenditure (click to go to sheet)

This sheet should be used to set out the schemes that constitute the BCF plan for the HWB including the planned expenditure and the attributes to describe the scheme. This information is then aggregated and utilised to analyse the BCF plans nationally and sets the basis for future reporting and to particularly demonstrate that National Condition 2
The table is set out to capture a range of information about how schemes are being funded and the types of services they are providing. There may be scenarios when several lines need to be completed in order to fully describe a single scheme or where a scheme is funded by multiple funding streams (eg: iBCF and CCG minimum). In this case please use a consistent scheme ID for each line to ensure integrity of aggregating and analysing schemes.
On this sheet please enter the following information:
1. Scheme ID:
- This field only permits numbers. Please enter a number to represent the Scheme ID for the scheme being entered. Please enter the same Scheme ID in this column for any schemes that are described across multiple rows.
2. Scheme Name:
- This is a free field to aid identification during the planning process. Please use the scheme name consistently if the scheme is described across multiple lines in line with the scheme ID described above.
3. Brief Description of Scheme
- This is free text field to include a brief headline description of the scheme being planned.
4. Scheme Type and Sub Type:
- Please select the Scheme Type from the drop-down list that best represents the type of scheme being planned. A description of each scheme is available at the end of the table (follow the link to the description section at the top of the main expenditure table).
- Where the Scheme Types has further options to choose from, the Sub Type column alongside will be editable and turn "yellow". Please select the Sub Type from the drop down list that best describes the scheme being planned.
- Please note that the drop down list has a scroll bar to scroll through the list and all the options may not appear in one view.
- If the scheme is not adequately described by the available options, please choose ‘Other’ and add a free field description for the scheme type in the column alongside.
5. Planned Outputs
- The BCF Planning requirements document requires areas to set out planned outputs for certain scheme types (those which lend themselves to delivery of discrete units of delivery) to help to better understand and account for the activity funded through the BCF.
- The Planned Outputs fields will only be editable if one of the relevant scheme types is selected. Please select a relevant
6. Metric Impact
- This field is collecting information on the metrics that a chem will impact on (rather than the actual planned impact on the metric)
- For the schemes being planned please select from the drop-down options of ‘High-Medium-Low-n/a’ to provide an indicative level of impact on the four BCF metrics. Where the scheme impacts multiple metrics, this can be expressed by selecting the appropriate level from the drop down for each of the metrics. For example, a discharge to assess scheme might have a medium impact on Delayed Transfers of Care and permanent admissions to residential care. Where the
7. Area of Spend:
- Please select the area of spend from the drop-down list by considering the area of the health and social system which is most supported by investing in the scheme.
- Please note that where ‘Social Care’ is selected and the source of funding is “CCG minimum” then the planned spend would count towards National Condition 2.
- If the scheme is not adequately described by the available options, please choose ‘Other’ and add a free field description for the scheme type in the column alongside.
- We encourage areas to try to use the standard scheme types where possible.
8. Commissioner:
- Identify the commissioning entity for the scheme based on who commissions the scheme from the provider. If there is a single commissioner, please select the option from the drop-down list.
- Please note this field is utilised in the calculations for meeting National Condition 3.
- If the scheme is commissioned jointly, please select ‘Joint’. Please estimate the proportion of the scheme being commissioned by the local authority and CCG/NHS and enter the respective percentages on the two columns alongside.
9. Provider:
- Please select the ‘Provider’ commissioned to provide the scheme from the drop-down list.
- If the scheme is being provided by multiple providers, please split the scheme across multiple lines.

10. Source of Funding:
- Based on the funding sources for the BCF pool for the HWB, please select the source of funding for the scheme from the drop-down list
- If the scheme is funding across multiple sources of funding, please split the scheme across multiple lines, reflecting the
11. Expenditure (£) 2019/20:
- Please enter the planned spend for the scheme (or the scheme line, if the scheme is expressed across multiple lines)
12. New/Existing Scheme
- Please indicate whether the planned scheme is a new scheme for this year or an existing scheme being carried forward.

This is the only detailed information on BCF schemes being collected centrally for 2019/20 and will inform the understanding of planned spend for the iBCF and Winter Funding grants.

7. HICM (click to go to sheet)

National condition four of the BCF requires that areas continue to make progress in implementing the High Impact Change model for managing transfers of care and continue to work towards the centrally set expectations for reducing DToC. In the planning template, you should provide:

- An assessment of your current level of implementation against each of the 8 elements of the model – from a drop-
- Your planned level of implementation by the end March 2020 – again from a drop-down list

A narrative that sets out the approach to implementing the model further. The Narrative section in the HICM tab sets out furt

8. Metrics (click to go to sheet)

This sheet should be used to set out the Health and Wellbeing Board's performance plans for each of the Better Care Fund metrics in 2019/20. The BCF requires plans to be agreed for the four metrics. This should build on planned and

1. Non-Elective Admissions (NEA) metric planning:

- BCF plans as in previous years mirror the latest CCG Operating Plans for the NEA metric. Therefore, this metric is not collected via this template.

2. Residential Admissions (RES) planning:

- This section requires inputting the information for the numerator of the measure.
- Please enter the planned number of council-supported older people (aged 65 and over) whose long-term support needs will be met by a change of setting to residential and nursing care during the year (excluding transfers between residential and nursing care) for the Residential Admissions numerator measure.
- The prepopulated denominator of the measure is the size of the older people population in the area (aged 65 and over) taken from ONS subnational population projections.
- The annual rate is then calculated and populated based on the entered information.
- Please include a brief narrative associated with this metric plan

3. Reablement (REA) planning:

- This section requires inputting the information for the numerator and denominator of the measure.
- Please enter the planned denominator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (or from hospital to a residential or nursing care home or extra care housing for rehabilitation, with a clear intention that they will move on/back to their own home).
- Please then enter the planned numerator figure, which is the planned number of older people discharged from hospital to their own home for rehabilitation (from within the denominator) that will still be at home 91 days after discharge.
- The annual proportion (%) Reablement measure will then be calculated and populated based on this information.
- Please include a brief narrative associated with this metric plan

4. Delayed Transfers of Care (DToC) planning:

- The expectations for this metric from 2018/19 are retained for 2019/20 and these are prepopulated.
- Please include a brief narrative associated with this metric plan.
- This narrative should include details of the plan, agreed between the local authority and the CCG for using the Winter Pressures grant to manage pressures on the system over Winter.

9. Planning Requirements (click to go to sheet)

This sheet requires the Health & Wellbeing Board to confirm whether the National Conditions and other Planning Requirements detailed in the BCF Policy Framework and the BCF Requirements document are met. Please refer to the BCF Policy Framework and BCF Planning Requirements documents for 2019/20 for further details.

The Key Lines of Enquiry (KLOE) underpinning the Planning Requirements are also provided for reference as they will be utilised to assure plans by the regional assurance panel.

1. For each Planning Requirement please select ‘Yes’ or ‘No’ to confirm whether the requirement is met for the BCF Plan.
2. Where the confirmation selected is ‘No’, please use the comments boxes to include the actions in place towards meeting the requirement and the target timeframes.

10. CCG-HWB Mapping (click to go to sheet)

The final sheet provides details of the CCG - HWB mapping used to calculate contributions to Health and Wellbeing Board level non-elective activity figures.

4. Strategic Narrative

Selected Health and Wellbeing Board: West Berkshire

Please outline your approach towards integration of health & social care:

When providing your responses to the below sections, please highlight any learning from the previous planning round (2017-2019) and cover any priorities for reducing health inequalities under the Equality Act 2010.

Please note that there are 4 responses required below, for questions: A), B(i), B(ii) and C)

Link to B) (i)
Link to B) (ii)
Link to C)

A) Person-centred outcomes

Your approach to integrating care around the person, this may include (but is not limited to):

- Prevention and self-care
- Promoting choice and independence

Remaining Word Limit:	0	Please do not exceed the word limit

In West Berkshire the Health and Wellbeing Strategy outlines the need for:-
• stronger more resilient communities
• people to help themselves and
• reducing health inequalities.

Community and person centred approaches have been identified as key enablers in supporting sustainability and we believe there is growing consensus about the need for health and social care services to embrace and support the role of individuals and their communities in their health and care. Social Prescribing in particular has been found to lead to a range of positive health and welling outcomes for people such as improved quality of life and emotional wellbeing.

The publication of the NHS long term plan has brought a renewed focus on primary care, personalisation and addressing the wider determinants of health. The plan announced a commitment to building the infrastructure in primary care, with social prescribing link workers to become an integral part of the multi-disciplinary teams within Primary Care Networks.

West Berkshire is developing an integrated community wellbeing model which supports 6 principles:

1. individuals are supported based on their knowledge, skills and confidence to self-care
2. a personalised and strength based approach focusing on what matters to the individual
3. Builds on existing assets, networks and trusted relationships through community conversations
4. tackles health inequalities through addressing the wider determinants of health
5. supports professionals and individual to be able to work in equal partnership supported by a workforce development strategy and
6. facilitates and encourages a strong and vibrant community sector.

The ethos for our integrated community wellbeing model is that it will be co-produced, bringing partners together to develop a shared and integrated local plan for social prescribing in West Berkshire. An interactive workshop took place on 25th April 2019, with 24 local stakeholders, including Primary Care, CCG, Voluntary Sector and Public Health. Conversations have already taken place with the CCG both at a locality and Berkshire West level, these have expanded to share current thinking with the Clinical Directors of the Primary Care Networks. The Clinical Directors from the four PCN's in West Berkshire are joining the Locality Integration Board to co-design our neighbourhoods.

West Berkshire's Locality Integration Board is a sub-group of the West Berkshire Health and Wellbeing board. Its main responsibility is overseeing the Better Care Fund Plan and implementing a programme of work to develop integrated Health and Social Care Services for West Berkshire. In February 2019 we held an Integration Workshop with the HWBB reviewing our vision to ensure it is still fit for purpose and sharing our journey of integration so far.

B) HWB level

(i) Your approach to integrated services at HWB level (and neighbourhood where applicable), this may include (but is not limited to):
- Joint commissioning arrangements
- Alignment with primary care services (including PCNs (Primary Care Networks))
- Alignment of services and the approach to partnership with the VCS (Voluntary and Community Sector)

One of the Integrated Care Partnership's priorities is to seek opportunities to jointly commission services which are currently approached separately by Health and Social Care.

A joint Commissioning Board was formed in May 2019, consisting of Directors from Adult Social Care, Directors of Joint Commissioning from BW Clinical Commissioning Group and Public Health to:

• Identify what services are already commissioned jointly across Berkshire West and explore how we can work more strategically with the Voluntary Community Sector
• Look at best practice of Joint Commissioning from other areas across the country
• Develop a market position statement (MPS) for each locality (Reading, West Berkshire and Wokingham)
• Develop an over-arching Berkshire West Joint Commissioning statement
• Use the MPS statements to identify opportunities for joint commissioning
• Develop key principles, inter-authority agreements/S75 for Joint commissioning arrangements
• Hold an event for providers to share our principles and opportunities for joint commissioning
• Develop a joint commissioning strategy for the next 12 months.

A sub-group of the Joint Commissioning Board is exploring how the 3 Local Authorities and the CCG can work more strategically with the VCS. It is recognised that the VCS have a vital role in prevention and early intervention services that can help people to live independently for longer and improve their quality of life. The initial focus of this group has been mapping existing voluntary sector contracts across Berkshire and reviewing the existing mechanisms and infrastructure for commissioning the VCS.

In January 2019 the NHS Long Term Plan was published. A key "building block" of the plan is significant investment in primary care and the establishment of Primary Care Networks focused on improving health and wellbeing of local populations of around 30-50,000. The plan commits the NHS to employing "link workers" within the PCN's to work with people to develop tailored care plans and connect them to local groups and support services. It is anticipated that over 1,000 trained NHS social prescribing link workers will be in place by the end of 2020/21 rising further by 2023/24.

The Council has been working with partners to co-produce an integrated community wellbeing model. The aim of the model is to bring together new provision (NHS link workers) and existing provision that supports individuals to self-care and strengthen community assets.
Housing are represented on the Health and Wellbeing Board and specific areas of focus has been addressing homelessness. Making Every Adult Matter (MEAM) has been operational in West Berkshire since January 2018 and brings together the Council, Police, Social Services, Two Saints, Probation Service, CCG, Berkshire NHS Trust, Fire and Rescue, DWP, ambulance Service, Sovereign Housing and various voluntary agencies. MEAM is an approach to homelessness which aims to identify those very vulnerable individuals with complex multiple needs who fall through the net. These people might have mental health issues, addictions, a history of life on the streets and for whatever reason they find it impossible to engage with the system. They tend to lurch from crisis to crisis at great cost to themselves and to the agencies which respond to each emergency as it arises.

West Berkshire has three Extra Care Housing schemes offering 151 units for older and disabled people. We also have a range of offers for adults with Learning Disabilities and Mental Health. We are working on another scheme, which will offer up to 12 units of supported accommodation for adults with Learning Disabilities and Mental Health by 2020/21.

(ii) Your approach to integration with wider services (e.g. Housing), this should include:
- Your approach to using the DFG to support the housing needs of people with disabilities or care needs. This should include any arrangements for strategic planning for the use of adaptations and technologies to support independent living in line with the

^^ Link back to top

Remaining Word Limit:	37

The Disabled Facilities Grant is managed through the Local Authority's Housing team and has seen the introduction of Occupational Therapists working within the team, specifically for the purposes of completing Disabled Facilities Grant funded adaptation(s) assessments. This has allowed for, a far more efficient service and ability to process DFG applications and therefore installation of grant funded works quicker. 114 DFGs were approved in 2018/19. This funding facilitated a range of adaptations from stair lifts, level access showers, extensions, hoists, through floor lifts, creating access into properties via ramping or other means, door widening, amongst other adaptations; all enabling the recipients of these adaptations across West Berkshire to remain living safely and independently in their own homes. The adaptations facilitated cut across tenures and ages to deliver adaptations to those in need. In 2018/19, nearly £800k was provided to Adult Social Care to fund OT equipment with the remaining budget being spent on housing adaptations under DFG as outlined above.

Based on the forecasted figures, 120 DFGs will be approved in this current financial year. Considering the DFGs that have already been approved to-date within this financial year and all of the existing cases that are in the 'pipeline' of the DFG process are at pre-approval stage, it is envisaged that the full DFG budget will be committed for this financial year.

In addition to this work, the DFG funding is used to deliver Community Equipment. £620K is committed to the provision of equipment to people in the community to enable them to live more independently. The provision is based on a "recycling" model which means that costs are reduced if equipment is returned once it is no longer needed. The Berkshire Community Equipment Service is delivered as a partnership across 6 Local Authorities in Berkshire and their Health Partners.

In addition to BCF and DFG grants the Local Authority has invested money into a Technology Enabled Care Project, employing an OT to provide expert support and advice to Social Workers in delivering some aspects of care in a different way by increasing the appropriate use of Assistive Technology and avoiding costs to the Health and Social Care economy by promoting individual choice and independence for as long as possible.

C) System level alignment, for example this may include (but is not limited to):	
- How the BCF plan and other plans align to the wider integration landscape, such as STP/ICS plans - A brief description of joint governance arrangements for the BCF plan	
Remaining Word Limit:	32

^^ Link back to top

We have ensured that our BCF and Integration plan aligns not only with our Health and Wellbeing Board, but also with the BWICP and BOB ICS. The BOB ICS 5 year plan is currently being drafted, with an overall vision to create a joined up Health and Social Care System where everyone can live their best life, get great treatment, care and support now and into the future. Its 5 aims are:

• To work together to deliver joined up H&SC services based on the needs of individuals and shaped by the circumstances and priorities of local communities
• To support people to live longer, healthier lives and treat avoidable illness early on
• To make the best use of limited public funds and resources so that, together, we can secure the best outcomes
• To make our focus local unless it is more efficient and effective for us to pool our expertise and resources to work together as an integrated H&SC system across BOB.
• To reach out, where appropriate, beyond our borders and work in partnership with others

Both our ICS and ICP recognise that a local first approach will be where we apply our efforts to make the majority of our improvements at a neighbourhood and locality level. Where it makes sense to combine our efforts the bigger challenges can be faced at an ICS level.

The Berkshire West Integration programme (BW10) was established in 2014 and brought together 10 partners from across Health and Social Care, it became the BW7 when the CCG's merged in 2016. Its initial focus was to improve integration of Elderly Frail services through the Better Care Fund. In 2016 the Berkshire West Health partners were announced as one of 12 Integrated Care Systems (ICS) vanguards, the initial focus being a health integration programme. Once the ICS was formed it became clear that the BW7 and BWICS governance structures needed to be integrated. This was agreed as one of the priorities at the Chief Officers Workshop in November 2018 and the aim was to introduce a single governance structure for both.

The new NHS long term plan, published in January 2019 set out a proposed direction for the NHS over the next 10 years. Also late last year the NHS released a proposed infrastructure which would be used to help shape the future health and social care governance arrangements. This was essentially based on three layers within a local architecture - namely System, Place and Neighbourhood. Locally, the term "Locality" has also been introduced into this infrastructure.

• The "System" refers to Buckinghamshire, Oxfordshire and Berkshire West (previously known as the "STP") and covers a population of 1.8 million.
• The "Place" is the newly formed Berkshire West Integrated Partnership, with a population of 600,000.
• The "Locality" refers to the three localities (Reading, West Berkshire and Wokingham) in line with Local Authority geographies, each with a population of around 150,000. Each locality has its own Health and Wellbeing board and its own Locality Integration Board.
• The "Neighbourhood" covers the new Primary Care Networks of which there are 14 across Berkshire West, each with a population of 30-50,000.

In May 2019 the proposed governance arrangements for a combined BWICS and BW7 were agreed and from the 1st July 2019 the BW Integrated Care Partnership (ICP) was formed and became operational (see attached appendix “governance). The driving force of the BWICP is to work, at scale, to provide more co-ordinated services which meet the needs of the people we service in the most effective, efficient and financially sound way.

Our aim is to make simple, practical improvements for the people we serve, often by learning from things that have worked well in other places. The ICP work programme is as follows:

^^ Link back up

Scheme Type	Description	Sub Type
Assistive Technologies and Equipment	Using technology in care processes to supportive self-management, maintenance of independence and more efficient and effective delivery of care. (eg. Telecare, Wellness services, Digital participation services).	Telecare Wellness Services Digital Participation Services Community Based Equipment Other
Care Act Implementation Related Duties	Funding planned towards the implementation of Care Act related duties.	Deprivation of Liberty Safeguards (DoLS) Other
Carers Services	Supporting people to sustain their role as carers and reduce the likelihood of crisis. Advice, advocacy, information, assessment, emotional and physical support, training, access to services to support wellbeing and improve independence. This also includes the implementation of the Care Act as a sub-type.	Carer Advice and Support Respite Services Other
Community Based Schemes	Schemes that are based in the community and constitute a range of cross sector practitioners delivering collaborative services in the community typically at a neighbourhood level (eg: Integrated Neighbourhood Teams)	
DFG Related Schemes	The DFG is a means-tested capital grant to help meet the costs of adapting a property; supporting people to stay independent in their own homes.	Adaptations Other

Enablers for Integration	Schemes that build and develop the enabling foundations of health and social care integration encompassing a wide range of potential areas including technology, workforce, market development (Voluntary Sector Business Development: Funding the business development and preparedness of local voluntary sector into provider Alliances/ Collaboratives) and programme management related schemes. Joint commissioning infrastructure includes any personnel or teams that enable joint commissioning. Schemes could be focused on Data Integration, System IT Interoperability, Programme management, Research and evaluation, Supporting the Care Market, Workforce development, Community asset mapping, New governance arrangements, Voluntary Sector Development, Employment services, Joint commissioning infrastructure amongst others.	
High Impact Change Model for Managing Transfer of Care	The eight changes or approaches identified as having a high impact on supporting timely and effective discharge through joint working across the social and health system. The Hospital to Home Transfer Protocol or the 'Red Bag' scheme, while not in the HICM as such, is included in this section.	Chg 1. Early Discharge Planning Chg 2. Systems to Monitor Patient Flow Chg 3. Multi-Disciplinary/Multi-Agency Discharge Teams Chg 4. Home First / Discharge to Access Chg 5. Seven-Day Services Chg 6. Trusted Assessors Chg 7. Focus on Choice Chg 8. Enhancing Health in Care Homes Other - 'Red Bag' scheme Other approaches
Home Care or Domiciliary Care	A range of services that aim to help people live in their own homes through the provision of domiciliary care including personal care, domestic tasks, shopping, home maintenance and social activities. Home care can link with other services in the community, such as supported housing, community health services and voluntary sector services.	
Housing Related Schemes	This covers expenditure on housing and housing-related services other than adaptations; eg: supported housing units.	

Integrated Care Planning and Navigation	Care navigation services help people find their way to appropriate services and support and consequently support self-management. Also, the assistance offered to people in navigating through the complex health and social care systems (across primary care, community and voluntary services and social care) to overcome barriers in accessing the most appropriate care and support. Multi-agency teams typically provide these services which can be online or face to face care navigators for frail elderly, or dementia navigators etc. This includes approaches like Single Point of Access (SPoA) and linking people to community assets. Integrated care planning constitutes a co-ordinated, person centred and proactive case management approach to conduct joint assessments of care needs and develop integrated care plans typically carried out by professionals as part of a multi-disciplinary, multi-agency teams. Note: For Multi-Disciplinary Discharge Teams and the HICM for managing discharges, please select HICM as scheme type and the relevant sub-type. Where the planned unit of care delivery and funding is in the form of Integrated care packages and needs to be expressed in such a manner, please select the appropriate sub-type alongside.	Care Coordination Single Point of Access Care Planning, Assessment and Review Other
Intermediate Care Services	Short-term intervention to preserve the independence of people who might otherwise face unnecessarily prolonged hospital stays or avoidable admission to hospital or residential care. The care is person-centred and often delivered by a combination of professional groups. Four service models of intermediate care are: bed-based intermediate care, crisis or rapid response (including falls), home-based intermediate care, and reablement or rehabilitation. Home-based intermediate care is covered in Scheme-A and the other three models are available on the sub-types.	Bed Based - Step Up/Down Rapid / Crisis Response Reablement/Rehabilitation Services Other

Personalised Budgeting and Commissioning	Various person centred approaches to commissioning and budgeting.	Personal Health Budgets Integrated Personalised Commissioning Direct Payments Other
Personalised Care at Home	Schemes specifically designed to ensure that a person can continue to live at home, through the provision of health related support at home often complemented with support for home care needs or mental health needs. This could include promoting self-management/expert patient, establishment of 'home ward' for intensive period or to deliver support over the longer term to maintain independence or offer end of life care for people. Intermediate care services provide shorter term support and care interventions as opposed to the ongoing support provided in this scheme type.	
Prevention / Early Intervention	Services or schemes where the population or identified high-risk groups are empowered and activated to live well in the holistic sense thereby helping prevent people from entering the care system in the first place. These are essentially upstream prevention initiatives to promote independence and well being.	Social Prescribing Risk Stratification Choice Policy Other
Residential Placements	Residential placements provide accommodation for people with learning or physical disabilities, mental health difficulties or with sight or hearing loss, who need more intensive or specialised support than can be provided at home.	Supported Living Learning Disability Extra Care Care Home Nursing Home Other
Other	Where the scheme is not adequately represented by the above scheme types, please outline the objectives and services planned for the scheme in a short description in the comments column.

Better Care Fund 2019/20 Template

7. High Impact Change Model

Selected Health and Wellbeing Board: West Berkshire

Explain your priorities for embedding elements of the High Impact Change Model for Managing Transfers of Care locally, including: - Current performance issues to be addressed - The changes that you are looking to embed further - including any changes in the context of commitments to reablement and Enhanced Health in Care Homes in the NHS Long-Term Plan - Anticipated improvements from this work
Following our LGA Berkshire West 7 (BW7) DToC Peer Challenge in Q4 of 2017/18, the 3 Locality Integration Boards and the BW7 Delivery Group agreed that they would ensure improvement in DToC performance across the 3 locality areas. We took a Health and Social Care (Berkshire West), approach to the 8HICM along with the Senior Responsible Officer (SRO) for each change area. The governance and delivery of the 8 HICM was the responsibility of the BW7 Delivery Group until July 2019. With the changes in governance to the

		Please enter current position of maturity	**Please enter the maturity level planned to be reached by March 2020**	**If the planned maturity level for 2019/20 is below established, please state reasons behind that?**

8. Metrics

Selected Health and Wellbeing Board: West Berkshire

8.1 Non-Elective Admissions

	19/20 Plan	Overview Narrative
Total number of specific acute non-elective spells per 100,000 population	**Collection of the NEA metric plans via this template is not required** as the BCF NEA metric plans are based on the NEA CCG Operating plans submitted via SDCS.	In 2018/19 West Berkshire had a target of 13,422 NEL's, our actual performance was 14,992. Despite this West Berkshire is one of the Top 10 performing areas across the Country. It is our ambition to meet the nationally set target by continuing to invest in the Care Home Project, Mental Health Street Triage and SCAS Falls and Frality targeting non-elective admissions across the whole of Berkshire West as they are making a difference. In addition we have done some further analysis on NEL's within West Berkshire and the plan is to look at this in conjunction with the Primary Care Network datapacks produced from the Population Health Management Programme

Please set out the overall plan in the HWB area for reducing Non-Elective Admissions, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Plans are yet to be finalised and signed-off so are subject to change; **for the latest version of the NEA CCG operating plans at your HWB footprint please contact your local Better Care Manager (BCM)** in the first instance or write in to the support inbox:
ENGLAND.bettercaresupport@nhs.net

8.2 Delayed Transfers of Care

19/20 Plan	Overview Narrative

Delayed Transfers of Care per day (daily delays) from hospital (aged 18+)	16.4	In 2018/19 we made significant progress in reducing Delayed Transfers of Care by 34%. (In 2018/19 overall days delayed were 5435 compared to 8180 in the same period in 2017/18). However, we have failed to achieve our Department of Health target since May 2019 which has triggered an email from NHS Improvement asking us to provide an update on DTOC for regional and national colleagues. During May 2019 447 of bed days delayed were due to Health reasons, 128 bed days delayed were due to Adult Social Care and 268 bed days delayed were due to Joint Delays. We have reviewed the reason for delays in May : joint delay reasons are solely due to challenges in sourcing care at home, it has become increasingly more difficult to find care at home that is affordable. Market capacity remains one of biggest challenges and we are working actively as part of our market management to increase the range of homecare options including Care Match - Carers focus on more challenged rural areas are matched with individuals and commissioning of a new homecare contract that will create greater capacity helping more people to return home after a period in hospital. Workforce is a particular challenge across the health and social care system, as demand increases we are seeing an increasing affordability challenge which BCF/iBCF or Council resources cannot address in a sustainable way. Social Care delay reasons are due to either waiting for a package of care to be set up which is impacted by capacity in the market or finding appropriate homes. These delays relate to identifiying an appropriate home, waiting for homes to assess and then waiting for homes to admit. Health delay reasons are more varied and related to waiting for further non acute care for example	**Please set out the overall plan in the HWB area for reducing Delayed Transfers of Care to meet expectations set for your area. This should include any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric. Include in this, your agreed plan for using the Winter Pressures grant funding to support the local health and care system to manage demand pressures on the NHS, with particular reference to seasonal winter pressures.**

Please note that the plan figure for Greater Manchester has been combined, for HWBs in Greater Manchester please comment on individuals HWBs rather than Greater Manchester as a whole.
Please note that due to the merger of Bournemouth, Christchurch and Poole to a new Local Authority will mean that planning information from 2018/19 will not reflect the present geographies.

8.3 Residential Admissions

		18/19 Plan	19/20 Plan	Comments
Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population	Annual Rate	628	619	This measurement relates to all activity in Adult Social Care not just Hospital Discharge. The outturn for 2018/19 was 191, the reason for this that we saw an increase in Asset Depleters (20). We are committed to getting people home rather than into a residential or nursing home. We have a number of work streams that
	Numerator	188	190	
	Denominator	29,919	30,675	

Please set out the overall plan in the HWB area for reducing rates of admission to residential and nursing homes for people over the age of 65, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Long-term support needs of older people (age 65 and over) met by admission to residential and nursing care homes, per 100,000 population (aged 65+) population projections are based on a calendar year using the 2016 based Sub-National Population Projections for Local Authorities in England;

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

8.4 Reablement

		18/19 Plan	19/20 Plan	Comments
Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement / rehabilitation services	Annual (%)	87.0%	84.8%	We have reduced the target against this metric. Whilst we are committed to enabling as many people as possible to be discharged home from hospital. This can be challenging as we struggle with capacity in the market and are seeing an increase demand for our in-house reablement team to ensure we discharge patients
	Numerator	100	128	
	Denominator	115	151	

Please set out the overall plan in the HWB area for increasing the proportion of older people who are still at home 91 days after discharge from hospital into reablement/rehabilitation, including any assessment of how the schemes and enabling activity for Health and Social Care Integration are expected to impact on the metric.

Please note that due to the merger of the Bournemouth, Christchurch and Poole Local Authorities, this will mean that planning information from 2018/19 will not reflect the present geographies.

Better Care Fund 2019/20 Template

9. Confirmation of Planning Requirements

Selected Health and Wellbeing Board: West Berkshire

Theme	Code	Planning Requirement	Key considerations for meeting the planning requirement These are the Key Lines of Enquiry (KLOEs) underpinning the Planning Requirements (PR)	Please confirm whether your BCF plan meets the Planning Requirement?	Please note any supporting documents referred to and relevant page numbers to assist the assurers	Where the Planning requirement is not met, please note the actions in place towards meeting the requirement	Where the Planning requirement is not met, please note the anticipated timeframe for meeting it
NC1: Jointly agreed plan	PR1	**A jointly developed and agreed plan that all parties sign up to**	**Has a plan; jointly developed and agreed between CCG(s) and LA; been submitted?** Has the HWB approved the plan/delegated approval pending its next meeting? Have local partners, including providers, VCS representatives and local authority service leads (including housing and DFG leads) been involved in the development of the plan? Do the governance arrangements described support collaboration and integrated care? Where the strategic narrative section of the plan has been agreed across more than one HWB, have individual income, expenditure, metric and HICM sections of the plan been submitted for each HWB concerned?	Yes	Tab 2 - Cover (Both the CCG Acountable Person and the Chair of the Health and Wellbeing board have been sighted on and approved the plan. The HWB is due to meet		
	PR2	**A clear narrative for the integration of health and social care**	**Is there a narrative plan for the HWB that describes the approach to delivering integrated health and social care that covers:** - Person centred care, including approaches to delivering joint assessments, promoting choice, independence and personalised care? - A clear approach at HWB level for integrating services that supports the overall approach to integrated care and confirmation that the approach supports delivery at the interface between health and social care? - A description of how the local BCF plan and other integration plans e.g. STP/ICSs align? - Is there a description of how the plan will contribute to reducing health inequalities (as per section 4 of the Health and Social Care Act) and to reduce inequalities for people with protected characteristics under the Equality Act 2010? This should include confirmation that equality impacts of the local BCF plan have been considered, a description of local priorities related to health inequality and equality that the BCF plan will contribute to addressing. Has the plan summarised any changes from the previous planning period? And noted (where appropriate) any lessons learnt?	Yes	Tab 4 - Strategic Narrative Section A, Section BI & Bii Tab 4 - Strategic Narrative Section C & Appendix "Governance"		
	PR3	**A strategic, joined up plan for DFG spending**	**Is there confirmation that use of DFG has been agreed with housing authorities?** Does the narrative set out a strategic approach to using housing support, including use of DFG funding that supports independence at home. In two tier areas, has: - Agreement been reached on the amount of DFG funding to be passed to district councils to cover statutory Disabled Facilities Grants? or - The funding been passed in its entirety to district councils?	Yes	Tab 4 - Strategic Narrative, Section Bii		
NC2: Social Care Maintenance	PR4	**A demonstration of how the area will maintain the level of spending on social care services from the CCG minimum contribution to the fund in line with the uplift in the overall contribution**	Does the total spend from the CCG minimum contribution on social care match or exceed the minimum required contribution (auto-validated on the planning template)?	Yes	Tab 3 Summary & Tab 5 Income		
NC3: NHS commissioned Out of Hospital Services	PR5	**Has the area committed to spend at equal to or above the minimum allocation for NHS commissioned out of hospital services from the CCG minimum BCF contribution?**	Does the total spend from the CCG minimum contribution on non-acute, NHS commissioned care exceed the minimum ringfence (auto-validated on the planning template)?	Yes	Tab 3 - Summary & Tab 5 Income		
NC4: Implementation of the High Impact Change Model for Managing Transfers of Care	PR6	**Is there a plan for implementing the High Impact Change Model for managing transfers of care?**	**Does the BCF plan demonstrate a continued plan in place for implementing the High Impact Change Model for Managing Transfers of Care?** Has the area confirmed the current level of implementation and the planned level at March 2020 for all eight changes? Is there an accompanying overall narrative setting out the priorities and approach for ongoing implementation of the HICM? Does the level of ambition set out for implementing the HICM changes correspond to performance challenges in the system? If the current level of implementation is below established for any of the HICM changes, has the plan included a clear explanation and set of actions towards establishing the change as soon as possible in 2019-20?	Yes	Tab 7 - HICM		

Agreed expenditure plan for all elements of the BCF	**PR7**	**Is there a confirmation that the components of the Better Care Fund pool that are earmarked for a purpose are being planned to be used for that purpose?**	Have the planned schemes been assigned to the metrics they are aiming to make an impact on? Expenditure plans for each element of the BCF pool match the funding inputs? (auto-validated) Is there confirmation that the use of grant funding is in line with the relevant grant conditions? (tick-box) Is there an agreed plan for use of the Winter Pressures grant that sets out how the money will be used to address expected demand pressures on the Health system over Winter? **Has funding for the following from the CCG contribution been identified for the area?** - Implementation of Care Act duties? - Funding dedicated to carer-specific support? - Reablement?	Yes	Tab 6 - Expenditure		
	PR8	**Indication of outputs for specified scheme types**	Has the area set out the outputs corresponding to the planned scheme types (Note that this is only for where any of the specified set of scheme types requiring outputs are planned)? (auto-validated)	Yes	Tab 6 - Expenditure		
Metrics	**PR9**	**Does the plan set stretching metrics and are there clear and ambitious plans for delivering these?**	Is there a clear narrative for each metric describing the approach locally to meeting the ambition set for that metric? Is there a proportionate range of scheme types and spend included in the expenditure section of the plan to support delivery of the metric ambitions for each of the metrics? Do the narrative plans for each metric set out clear and ambitious approaches to delivering improvements? **Have stretching metrics been agreed locally for:** - Metric 2: Long term admission to residential and nursing care homes - Metric 3: Proportion of older people (65 and over) who were still at home 91 days after discharge from hospital into reablement	Yes	Tab 8 - Metrics
